## School board seeks vote on new college

A showdown on whether the Quad-City area should be allowed to vote on a proposed local Junior College district is expected to take place Friday, Sept. 21, when the Illinois Junior College Board will meet at Freeport.

Leo Konzen, chairman of a junior college committee established by the Chamber of Commerce of the Tri-Cities, told those present at a Prayer Breakfast yesterday that he has requested that the proposal for a Quad-City junior college district be placed on the Sept. 21 agenda.

"State officials asked us if we would wait until October, but I said we wanted to meet the issue head-on now," Konzen related.

Hopes that the state board may allow a local referendum on the issue rose as those present voted unanimously to have the proposal, Bill Tereill of Granite City, write to the board endorsing the proposal. On Tuesday night the Granite City Board of Education voted unanimously to encourage a referendum and to have B. J. Davis, superintendent of

schools, and William Schooley, school attorney, prepare a resolution to that effect and submit it to the state board with the local board's endorsement. Davis informed those attending the Prayer Breakfast of the school board's action.

Konzen said the local effort also is being assisted by an Edwardsville attorney who is circulating petitions supporting Edwardsville withdrawing from Lewis & Clark Community College and joining efforts to establish a local district.

More than 500 signatures have been obtained in the Edwardsville area, he said. The three local school districts, Granite City, Madison and Venice, have three primary options—to create the new junior college district here before the end of the year or to join either Lewis & Clark or Belleville Junior College. At the request of the state board, local representatives have met with Lewis & Clark officials in an attempt to ensure locally-held classes if the local districts were to join Lewis & Clark.

Konzen said the school's

officials "made it very clear there would be classes in the Tri-Cities, perhaps the very next day (after annexation), but there were no guarantees of what type, how many and for how long." He said they made it clear there would not be an attendance center located here unless the area could achieve massive state funding for such a center.

The possibility of Belleville Junior College holding local classes if the local area was annexed has not been thoroughly explored, but it is felt Edwardsville would have to disconnect from Lewis & Clark and also join Belleville before the proposal would be seriously considered, he said.

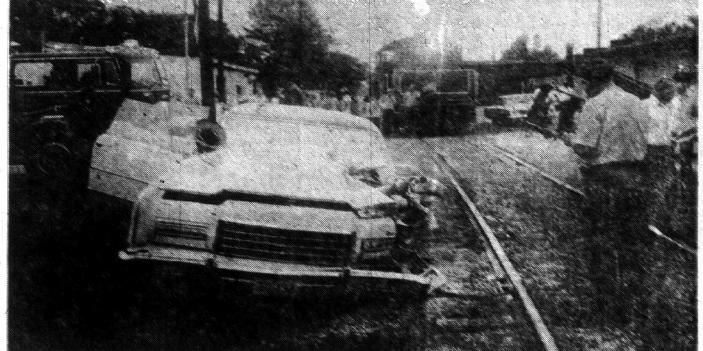

Plans for a local junior college district call for primary use of Southern Illinois University at Edwardsville facilities with possible classes at other locations, including the vacant Central Junior High School and portions of the Venice-Lincoln Technical Center. An amendment to the state laws, sponsored by Sen. Sam Vadalabene (D-Edwardsville),

has made it legal to utilize SIUE facilities for junior college classes, Konzen has reported. The state Junior College Board has discouraged establishment of a Quad-City district without Collinsville or Edwardsville due to the assessed valuation of approximately \$277.7 million, the population base and a projected student enrollment of less than 1,000 students.

The law requires an assessed valuation of \$150 million and a minimum population of 60,000 to establish a new district, both surpassed here, but the proposal also must be accepted by the state board.

### TERRACE LANE ACCIDENT

A hit and run motorist went into the yard at the home of Robert Huebner, 44 Terrace Lane, Tuesday, struck a tree in the yard and hit the auto of Coleen Owens, 2803 Madison Ave., parked in the driveway. Repeated complaints have been made by neighbors who say cars use the street for racing late at night.

**AUTO-TRAIN CRASH LAST NIGHT** in the 1300 block of State Street, Madison. This view, looking east toward State, shows the auto, damaged on the left front,

with the train in the background. The driver, Gerald Moss, was pulled from the flaming auto but escaped with minor injuries. (Press-Record Photo)

## Health care needs cited

By GARY SCHNEIDER

Press-Record Staff Writer  
Means of solving shortages in local health care were suggested by 38 residents and officials who attended a monthly Community Prayer Breakfast last Tuesday at Charlie's Restaurant.

Cited were shortages of doctors, overcrowded emergency facilities, frequency of lawsuits, and the possibility of additional medical offices or clinics.

Dr. George T. Wilkins Sr., former state superintendent of

public instruction, said the problem in the Quad-Cities is not unique. Nationwide, there are an estimated 250,000 doctors, about 50,000 short of the number needed," he said. There is one doctor for every 507 persons, and most are specialists," Wilkins said.

Cited were emergency room facilities at St. Elizabeth Hospital and use primarily of St. Louis doctors to staff it, leaving more local doctors free to treat in their offices those

## New sewer repair crew

By HARRY BARNES

Press-Record Staff Writer  
City street department employees who have been assigned to repair work on a series of sewer breaks in the Nameoki area will be taken off those jobs and replaced by men hired by

an East St. Louis contractor under action taken by the Granite City Council Tuesday night.

The action taken on a motion by Alderman Roy Poulos who said the street department is in serious need of its full manpower to cope with regular street work followed a warning by Street Superintendent Lionel Portell that the council should

"think about" such a move because of the large additional expense that might be involved. As a result of Portell's comment, the council justified its decision to pull all street department workers off the sewer repair work "as soon as possible," rather than making the order immediately effective.

++  
A series of 14 breaks in sanitary and stormwater sewer lines has occurred since

February. The street department attempted to repair the breaks, but because of a high water table which filled excavations as fast as they were dug, and limited equipment for such work, the effort was unsuccessful.

Two months ago the city awarded a contract to the Finis Ernest Co. of East St. Louis to repair the breaks on a unit cost bid. A crew of street department workers remained on the repair jobs, however, to pump sewage past the breaks in some instances. Portell said that he has had as many as one third of his 26-man crew working on sewer breaks.

Several aldermen noted during Tuesday night's meeting that the use of street department workers on sewer break

(Continued on Page 12)

## Personalized United drive

A person-to-person approach in the Tri-Cities Area United

Way campaign opening Sept. 25 was outlined Wednesday morning at a conference between drive leaders and the 18 member agencies.

Efforts will be made to have every contributor contacted directly by some other individual, rather than merely an impersonal letter or bulletin-board notice.

It was noted that the kickoff dinner is set for 6:30 p.m. Tuesday, Sept. 25, at the cafeteria of Granite City High School South. Guest speaker will be Paul Simon, former local state legislator who served as the 1969-72 Illinois

Lieutenant governor.

A film shown after yesterday's discussion depicted some of the many direct services provided to residents and employees by the agencies.

"When each contributor is contacted, he will be asked to pledge a fair share," the gathering was told. "No card will be left unworked. If nearly everyone gives, and if those who contribute give enough, the drive cannot help but top its \$400,000 minimum goal."

It's important to all that this be a turnabout year—the first over-the-top drive since 1966. The agencies need, deserve and must have not just their

preliminary allocations but substantially more.

"They will share fully—in all the basis of verified needs—in all additional funds raised."

Kits were distributed so that the salaried staffs of United Way agencies can make their own contributions prior to the kickoff. A pilot campaign also is in progress at Granite City Steel Co.

Speakers were William F. Winter, Press-Record editor and general chairman of the drive; S. T. "Pete" Nasir, United Way executive director; and Marvin VanMetre, manager of the YMCA, scene of the meeting.

**AWARD FOR EXCELLENCE.** Executive staff members of the Cahokia Mound Boy Scout Council were awarded special regional jackets for their excellence in performance at a planning conference at Colorado State University. Left to right, wearing the bright red jackets with the regional emblem, are William Monical, scout executive, Mark Yehling, Thomas Leet and Clyde Donovan, local district executives. (Press-Record Photo)

## Scout council praised

By WALTER STRANGE

Press-Record Staff Writer  
Boy Scouts of America, with offices at 1338A Niedringhaus Ave., has the best record of performance of the 17 Councils in Area 3, which covers southern Illinois, Missouri, Kansas and part of Iowa, according to the National Council of the B.S.A.

The local council is rated third among the 35 councils of the North Central Region which in addition to Area 3 takes in North and South Dakota, Minnesota, Nebraska, Wisconsin, Colorado, Montana, and part of Wyoming.

Six hundred professional Boy Scout executives met from Aug.

26 through Aug. 31 at the Colorado State University, Fort Collins, Colo., in a regional planning conference.

At the Wednesday noon luncheon during the conference

William Monical, local Scout executive, and his assistants Mark Yehling, Thomas Leet and Clyde Donovan, were called forward and presented with

(Continued on Page 24)

## Nemeth hurt seriously

Granite City Detective Sgt. Joseph Nemeth was injured seriously in an auto accident at 12th Street and Madison Avenue, Madison, at 2:40 p.m. Tuesday.

He was admitted to the intensive care unit of St. Elizabeth Hospital with severe pains to his left rib area and chest.

A member of his family said no indications of a heart attack have been found but that the cause of the pain has not been identified. Several specialists have examined him, it was reported.

He was driving a Granite City Police Department unmarked

detective's car south on Madison Avenue when the northbound auto of Mrs. Marie Ropac, 68, of 401 Sara St., turned left onto 12th Street and they collided, according to reports. Mrs. Ropac also was injured.

Nemeth's auto was pushed into the parked car of Melvin Voss, Killeen, Tex., damaging the rear of the parked vehicle. Mrs. Ropac was charged with a right-of-way violation.

Both Nemeth and Mrs. Ropac were taken by ambulances to St. Elizabeth Hospital. She was treated for a bruise to her left knee and injuries to her abdomen. X-rays were taken and she was released.

**SEEKING ANSWERS** to area health care needs, Quad-City residents and officials met yesterday morning here at a prayer breakfast. Among those attending were, clockwise from the left: Ed Edwards, a partner in Commercial Office Products Co.; John Palchett, superintendent of Madison public schools; Dr. George T.

Wilkins Sr., former state superintendent of public instruction; State Sen. Sam Vadalabene (D, Edwardsville); Dr. Jack Miller, local dentist; Bob R. Miller, emergency medical services trauma coordinator here; and Walter Wilton, Pepsi-Cola executive (back to camera).

## 2 hurt in fiery crash

Two persons were injured and a Madison County Sheriff Department's unmarked car and a motorcycle were destroyed by flames in an accident at Nameoki Road and Garfield Avenue at 6:55 p.m. Tuesday.

The motorcycle of Robert Corrado, 18, of 16 Briarcliff Drive, was unable to stop on wet pavement and slid underneath the unmarked county detective car driven by Deputy Stephen Kusmierczak, 47, of 2601 Iowa St., according to reports.

The gasoline tank of the motorcycle ruptured and exploded, causing second and third degree burns to Corrado's legs and ankles.

The flames spread to the car and Kusmierczak escaped with burns to his right hand.

The Granite City Fire Department extinguished the fire. Kusmierczak was released from St. Elizabeth Hospital following treatment. Corrado was admitted with multiple lacerations to both ankles and the burns to his legs.

# Collective bargaining for state employees

Gov. Dan Walker late Tuesday issued an executive order giving state employees the right to organize and bargain collectively.

The governor's action makes Illinois the fourth state with a collective bargaining executive order for public employees. There is also a federal executive order on collective bargaining.

Gov. Walker said the executive order gives employees the right to voluntarily form

unions or join unions without fear of reprisal. It also gives them the right not to join or participate in collective bargaining groups.

The order establishes for employee unions or other recognized bargaining representatives the right to negotiate with department heads on wages, hours and working conditions.

Gov. Walker said the order does not grant the right to strike. He said the right of public employees to strike is governed by state law as interpreted by the courts.

Walker said: "State government is the largest employer in Illinois, with more than 117,000 employees."

"Yet, most of those employees have no formal mechanism for collective bargaining. Some state workers now belong to unions, but those unions are not guaranteed the right to negotiate for their members."

"The executive order I am issuing today, if continued by my successors, will go a long way toward keeping patronage out of state government."

encourage qualified persons to join state government and make the serving of this state's citizens a professional career."

"I have urged the passage of legislation on collective bargaining for the public sector. Despite the reports of two distinguished study commissions—the first one calling passage of a public employee labor relations law 'imperative' six years ago and the other saying passage was 'even more imperative' in 1971—General Assemblies have been unable to agree on enacting a collective bargaining law."

"Equally important, it will encourage qualified persons to join state government and make the serving of this state's citizens a professional career."

"As I noted in the executive order, experience in private industry, federal government and other states has demonstrated that constructive collective bargaining leads to operational efficiency and employee well-being."

"I will continue fighting for a broad collective bargaining law for all public employees."

The order establishes an independent Office of Collective Bargaining to determine which groups of employees constitute units for purposes of labor relations and to administer the new labor relationship between the state and its employees.

Commission and three public members with experience in labor relations, appointed by the governor.

The governor said the order will have no effect on the status of existing state employee organizations—such as the American Federation of State, County and Municipal Employees and the Illinois State Employees Association—unless a majority of employees choose other organizations to represent them in bargaining.

Walker said his order implements provisions in the state constitution which authorize the director of personnel to negotiate with employees over wages, hours and working conditions.

He noted that 33 other states have enacted public employee collective bargaining laws, beginning with Wisconsin in 1958.

In addition, the governors of three states (California, Florida and Washington) have issued

executive orders on collective bargaining.

The California legislature later passed a collective bargaining law for public employees, superseding the executive order.

The personnel director of New Mexico, at the request of that state's governor, issued an order on the subject. And the mayors of New York City and Washington, D. C., have done so.

The late President Kennedy issued a collective bargaining executive order governing labor relations between the federal government and its employees in May 1963.

President Nixon has issued two such orders, one in October 1969

and another in August 1971.

The executive order gives state employees the right to join or not join a union, and the governor or other gubernatorial appointees if their vouchers go through the Department of Finance.

Exceptions include the state police force, which has a merit system distinct from the Personnel Code, and employees of state colleges and universities, most of whom have collective bargaining agreements now.

Supervisory, managerial, confidential and temporary employees do not come under the order.

## Cahokia Knights-Shrine annual dinner Sunday

Thousands of dollars for retarded children, and the same amount to transport children to the Shrine Burns Institute in Cincinnati, have been raised at the Cahokia Knights of Columbus' annual chicken dinner sponsored each year with Ainal Temple. This year's dinner will be held Sunday, Sept. 9, from 11 a.m. to 8 p.m.

The event was the first of many now being held between the two groups in Southern Illinois; the \$10,000 that the Shrine uses to transport burned children to the Shrine Burns Institute at Cincinnati comes from such dinners.

## Deadline Sept. 27 on disaster claims

A Sept. 27 deadline has been established for the filing of disaster relief applications with the Small Business Administration by Illinois flood victims who suffered property damage on government-leased land. It applies to Madison County and 50 other counties.

The SBA phone number in Springfield is 217-525-4416; those in Chicago are 312-353-4494 and 4495.

The breakfasts have become a monthly forum for discussing local problems and seeking solutions.

## State cracking down on cigarette tax cheaters

Four vehicles were confiscated and the owners arrested over the Labor Day weekend in the state's continuing crackdown on tax cheaters who transport unstamped cigarettes into Illinois.

Robert H. Alphin, director of the Illinois Department of Revenue, announced Tuesday afternoon.

"There is a \$25 million loss in state revenue annually due to cigarette smugglers who try to save a few pennies at the expense of the majority of law-abiding taxpayers," Alphin said.

"The four vehicles, all recent models, are being held in a state facility."

He noted that eight vehicles have been seized since the new confiscation policy went into effect in late July.

The following were arrested and their vehicles confiscated Sept. 2 and 3 in four different locations in the Hammond, East Chicago and Whiting area:

William Carr, 52, self-employed carpenter, Calumet City 115 cartons; 1972 Buick Electra confiscated.

Donald Mette, 48, construction worker, Chicago 125 cartons; 1972 Buick Limited confiscated.

Wayne Mroz, 23, assistant computer scientist, Argonne National Laboratory, Argonne, Ill. 115 cartons; 1972 Buick Limited confiscated.

who lives in Cicero (no cartons); 1971 Pontiac LeMans confiscated.

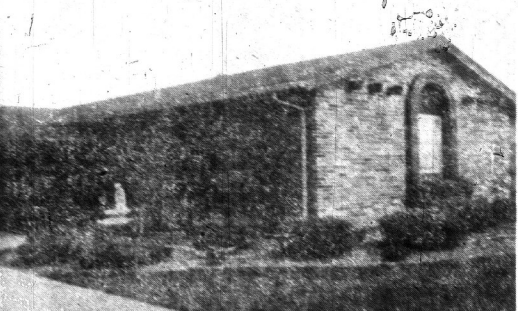

Thomas G. O'Leary, 45, elevator starter for the Chicago Tribune, who lives in Chicago (26 cartons); 1970 Oldsmobile 88 confiscated.

If convicted, all four are subject to fines up to \$1,000 and a year's imprisonment. There are also civil fines of \$10 for each package of unstamped cigarettes.

Court date is Nov. 1 at Calumet City. Mette is scheduled to appear Sept. 27 at Branch 58, Chicago Civic Center.

**UNMARKED POLICE CAR** in which Granite City Detective Sgt. Joseph Nemeth was injured in an accident at 12th Street and Madison Avenue in Madison at 1:40 p.m. Tuesday. Nemeth was admitted to the intensive care unit of St. Elizabeth Hospital. The detective's car and the auto of Mrs. Marie Ropac of Granite City, collided. She also was injured.

**SPANISH INFLUENCE** marks the exterior design and interior furnishings of the Carl Hoffman residence, 3236 Newell Drive, emphasized with wood paneling, brickwork, molded window arches and a small front courtyard. The dwelling is one of several local houses to be shown in the Granite City Junior Service Club's home tour and tea, set from 2 to 5 p.m. Sunday. (Press-Record Photo)

## GC Junior Service Club to host home tour, tea Sunday

A tour of several Granite City homes preceded by a tea and bazaar will be sponsored by the Granite City Junior Service Club from 2 to 5 p.m. Sunday.

Mrs. Rena James is serving as chairman of the tea and Mrs. Beverly King is in charge of the bazaar. Both events will take place in the ballroom at the Granite City Elk's Club.

Maps showing the location of homes on the tour will be available at the tea. Tickets may be purchased at that time for the tour costing \$2 per person. Mrs. Carol Tritsch, ticket chairman, announced.

Co-chairman of the project are Mrs. Linda Saltich and Mrs. Loretta Kerekovich. Mrs. Marge Pennell is in charge of

arrangements at the individual homes.

Among the residences to be shown are those of Mr. and Mrs. Carl Hoffman, 3236 Newell Drive, Dr. and Mrs. Donald C. Schnellmann, 3602 State St., and Mr. and Mrs. Willie Mason, 2243

## TV shows

(Continued from Page 1)

On Channel 5 Friday, a Weirid Harold cartoon at 7 is followed by the Starship Rescue cartoon at 7:30 and a Clint Eastwood 1971 film, "The Beguiled" at 8. Channel 3 offers the Odd Couple at 7:30, Room 222 at 8, Corner Bar at 8:30 and Love, American Style at 9.

On TV 4 Friday, Regis Philbin hosts Minnesota Fats at 6:30, Sixty Minutes follows, with a Walter Pidgeon 1969 movie, "Vatican Affair" at 8.

The Miss America pageant at Atlantic City is set for 9 p.m. Saturday on Channel 5 following Emergency at 7 and Don Adams and Don Rickles at 8.

Channel 2 on Saturday offers Hee Haw at 6, Partridge Family at 7, Paul Lynde at 7:30 and a special on "Woman's Place" at 8. On 4 it will be Lassie at 6:30. All in the Family at 7, Bridge at 7:30, Mary Tyler Moore at 8, Bob Newhart at 8:30 and Mission Impossible at 9.

"A Man for All Seasons" the award-winning 1956 movie shown last night, will be repeated on TV 5 Sunday afternoon.

The baseball Cardinals, featured often on TV during their current road trip, have games at Chicago tomorrow through Sunday but will be at home to Montreal at 7:30 p.m. Sept. 11 and 12. St. Louis hosts Pittsburgh Sept. 14-15.

**ALL THE FISH YOU CAN EAT FRIDAY, 31, AT GRANTS**

## Burglars get drugs

Drugs and about \$200 cash were stolen from Vaughn's Pharmacy, 1836 Delmar Ave., in a burglary which was reported Tuesday.

Drugs taken included morphine, codeine, diazepam and other drugs classified as dangerous. The retail value of the drugs was estimated by Don Vaughn, owner of the drug store, at \$200, but he said they would sell on the street for more than \$2,000.

The cash was stolen from the register. Entry was gained by prying open a rear inner door. A key had been pushed and broken in a door lock.

## JOHNSON ROAD CRASH

Robin Conko, 12, of 3324 Colgate Ave., a passenger in the auto of Michael Kelly, 3132 Ash Ave., suffered minor injuries when Kelly's car and the vehicle of Connie Jackson, 55 Old Township Road, were in an accident at Johnson Road and Carlson Avenue at 1:30 p.m. yesterday.

**GLENN ARTHUR DIES**

## Early Illinois is captured in miniature

By JUDITH KELLY  
Copley News Service

**SPRINGFIELD** — If the pace of today seems too fast for you, why not take some time off to step back into scenes of a bygone era that stand still while the rest of life whizzes by.

The Carson dioramas at the Illinois State Museum let you do just that. Viewing the miniature rooms set in walls on the second floor, you're drawn into the panorama of Illinois history from pioneer days onward. Depicted in a scale of one inch to the foot are settings which, vital to the life and commerce of the past, became a part of the state's heritage.

Carson Pirie Scott & Co. had Eugene Kupsky, artist and master craftsman, fashion the miniatures in celebration of the Illinois sesquicentennial in 1968. During that year the exhibit toured the state, and afterwards came to the museum.

So there you now see replicas of such legacies of pioneer days as Rutledge Tavern and Lincoln's law offices. Also a farm kitchen of about 1850, illuminated by an alcohol lamp, that looks so real you easily put yourself in one of the wooden chairs by the table; or at the iron stove, stirring soup with a long-handled spoon; or pumping water into the sink. The farmer's wife braided the rug on the floor, and made the brown soap occupying a side shelf. Other supplies, including lamp chimneys, flat irons, brooms, and tin and enamel ware, were purchased from a peddler, whose horse and wagon are the subject of another diorama.

For fabric, mummy shopped at stores like Carson and Pirie's. The diorama of which is lit by a gas chandelier. Hats, corsets and dresses on display provided ideas of what to buy — for a seamstress to make, since ready-to-wear clothing wasn't available. Tightly corseted ladies rested on stools at the counter while selecting ribbon for hairbows or trim.

By the '90s Illinois towns had grown into bustling centers of activity revolving around the square, train depot and general store, which are also here in miniature. The interior of the store shows apricots and prunes in open crates, slabs of cheese, and coffee mill on the counter. China on display attracted women, who also liked to gossip while shopping or picking up mail. Men exchanged news around the cracker barrel in the store.

Another big draw was the corner drugstore, with its gilded mirrors, Corinthian columns and marble-topped fountain. Ladies perched on copper chairs, ate gooey sandwiches and watched passersby. Romeo sat with Juliet — or bought boxes of candy to give her later. For anyone who overindulged, the pharmacist was on hand to mix up a remedy for stomach aches.

By 1910 nickelodeons had appeared, adding a touch

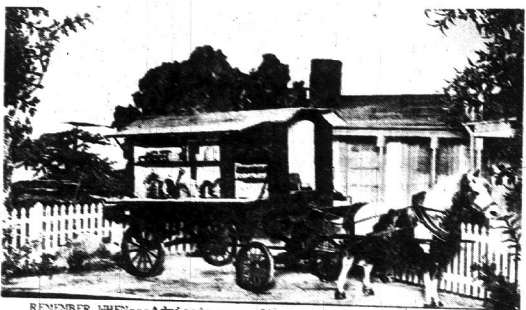

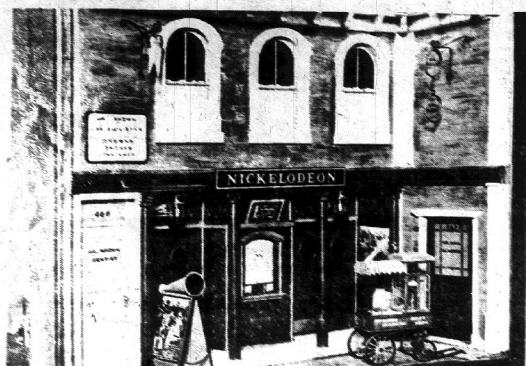

magic to towns. On the street outside, barbers summoned customers through a megaphone. Vendors sold popcorn and peanuts. Object signs identified nearby dentist and optician offices for non-English-speaking immigrants who also enjoyed the flickering of silent films inside the nickelodeon.

Less popular was the one-room schoolhouse, in which a teacher clad in leg-o-mutton jacket supervised eight grades, sometimes with the aid of bell, birch cane or dunce cap. Pictures of Washington and Lincoln on the wall inspired students, who left their slates on racks before leaving each day.

A favorite spot for loafing after school was the lively stable, which, as the diorama shows, underwent a transition in about 1911 to service horseless carriages as well as horses. The forge, tools and mechanical ability of the blacksmith came in handy for both. Though eventually his fire, foot bellows, hay pulley and horse trough and pump would be replaced by the equipment found in modern garages.

Other interiors shown are Carl Sandburg's birthplace in Galesburg; Grant's home in Galena; Jane Addams' study at Hull House; and the barber shop of Chicago's Palmer House. Contrasting with its gilded elegance is the dining room of a home designed by Frank Lloyd Wright; the simple flow of line from walls to ceiling reflect the landscape outdoors, heralding an architectural style evident in homes today.

And who knows? Maybe someday a home or other contemporary locale you know of will be the subject of a diorama — and an object of nostalgia for museum goers.

REMEMBER WHEN—Admission was five cents to the Nickelodeon (top photo) showing that old thriller "The Perils of Pauline." Dr. Brown's "cough" sign and Dr. Hall's glasses sign left no doubt about their specialty. Farmer's wives purchased tin ware and other provisions from a peddler with a horse-drawn cart (bottom photo).

## STRICTLY PERSONAL Honking boyfriend angers father

By PAT and  
MARILYN DAVES  
Copley News Service

Dear Pat and Marilyn:  
My husband has been coming home later and later. At first he would arrive about 30

minutes late and always say he had met a friend and had a drink before starting home. This went on for a month or so and then he began arriving later and later. Last night he did it! He came home at 3 a.m. I really blew my cool.

We had a big fight and he didn't get a wink of sleep but went to work anyway.

His various excuses for getting in at these ridiculous hours range from going bowling to drinking to working late. We've only been married three months and I want things to work out right. Would you believe these stories? — Doubtful

Dear Doubtful:  
NO.

Dear Pat and Marilyn:  
When my boyfriend, Jeff, comes to pick me up he sits outside and honks. I don't mind at all but my father does. I feel I'm a perfectly healthy girl and can walk to the car by myself. Why do fathers get so up tight? — Jennifer

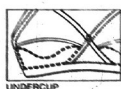

Most boys do not sit outside and honk for their dates. Most young men follow the basic rules of etiquette. They enter the house because, if they don't, they are apt to be met by an angry father instead of the girl.

## NEW PLAYTEX "CROSS YOUR HEART" UNDERCUP SUPPORT BRAS

Undercup support panels for extra support. You'll look and feel more comfortable, more feminine.

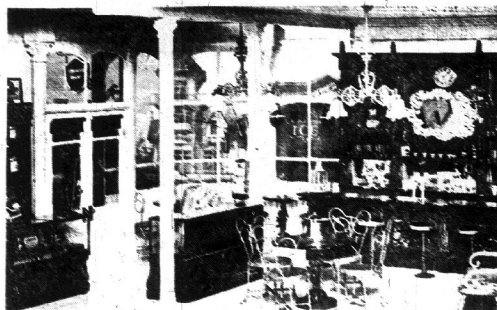

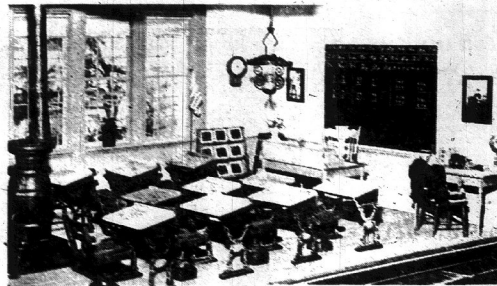

Delicate daisy lace cups, shirred back and sides, adjustable stretch straps for superb fit and comfort. PLUS... famous Cross Your Heart® Bra styling for lift and separation plus youthful shaping.

SCHOOL DAYS—Pictures of Washington and Lincoln on the wall (top photo) inspired students of grades one through eight attending class in the one-room schoolhouse and the potbellied stove kept them warm through Illinois winters. Their mothers bought food and chine and caught up on the latest gossip at the general store (bottom photo) overlooking the town square and train depot.

## SIUE Cougars, Defending Soccer Champs, Have Tough Act To Follow

It's going to be tough for the Cougar soccer team of Southern Illinois University at Edwardsville to top its record of last season, 10-0-3.

Winners of the NCAA college division crown, the SIUE kickers of Coach Bob Guelker were the only undefeated collegiate soccer team in the nation.

Making it also tougher to better their 1972 record, the Cougars played the St. Louis University Bills to a 1-1 deadlock in regular 1972 season play before 15,000-plus fans at Busch Stadium.

And the Bills won the university division NCAA national crown at the Miami

Orange Bowl two days before New Year's Day.

The Cougars, who will open their season Saturday, Sept. 15, with their annual Alumni Game, will move up again in their competitive situation. Last year, for the first time, American collegiate soccer was divided into two divisions: the university division (for big schools, so-called) and the college division. This year, with the NCAA divided into three divisions (one, two and three), SIUE will be in No. 2 for all sports but soccer. The new regulations permit the No. 2 and No. 3 schools to upgrade one sport to the higher division. And, SIUE

has decided to compete in the No. 1 soccer group, or what was the university division.

This decision nearly guarantees an all-or-nothing confrontation with St. Louis University as both will be, practically every year, contenders in the Midwest Regional tournament. The Bills knocked out the Cougars in 1969, 1970 and 1971. Last year, they played in different divisions.

But, even before the excitement of the post-season tournament rolls around, the two national soccer giants will meet Friday night, Nov. 9th, at St. Louis' Busch Stadium.

## Horn infant is stillborn

Amy Christine Horn was stillborn at 10:30 a.m. Wednesday at St. Elizabeth Hospital. She was a daughter of Mrs. Brenda Horn, 430 Kirkpatrick Home, and Homer Lee Horn.

Other survivors include a brother, Lloyd Eugene Latchford; a sister, Helen Mae Latchford; maternal grandparents, Mr. and Mrs. Jerry (Mary) Angle and paternal grandmother Mrs. Mary Taylor, all of Granite City.

Funeral arrangements are given in the obituary column.

## Isaac Jackson rites Saturday

Isaac Jackson, 58, of 105 North Third St., Brooklyn, died at St. Elizabeth Hospital Monday. He was an employee of the Norfolk & Western Railroad.

Survivors include his mother, a daughter, eight sisters and four brothers.

Funeral services will be held at 1 p.m. Saturday at the Southern Tabernacle Baptist Church, Brooklyn.

**BIRTHS**  
Births recorded at St. Elizabeth Hospital.  
Mr. and Mrs. Danny Miller, 2686 Madison Ave., Sept. 4, Laura Ann, five pounds, 12 ounces.  
Mr. and Mrs. Thomas Ruppel, 2074 Fourteenth St., Sept. 4, Kimberly Louise, six pounds, 12 ounces.

## Street work to ban parking

Parking will be prohibited Monday morning on five sections of Granite City streets to permit priming work in preparation for resurfacing. Street Superintendent Lionel Forrell announced today.

Streets on which motorists have been asked not to park include: Pontoon Road from Franklin Avenue to North Street; Edgewood Avenue from Johnson Road to St. Clair Avenue; State Street from 27th to 29th streets; Felling Road from Oregon Avenue to State Street; and Edison Avenue from 28th to 29th streets.

The streets will remain open to traffic except for short periods in which a prime coating and sand will be applied to these streets.

## Huck luck—a 340 million guess

Granite City Press-Record

Thur., Sept. 6, 1973 Page 3

John J. Huck, 3385 Colgate Place, has been named first-place winner with a guess of \$40,530,000 gallons in the annual "Better Water for Americans Week" contest sponsored by the East St. Louis and Interurban Water Company.

Customers were invited to

guess the total amount of water delivered to all of the company's 63,000 customers in Madison and St. Clair Counties during the period from Aug. 12 to 18.

Robert Jackson, Granite City

District manager, said the actual figure was 340,170,000 gallons.

Other local winners were Vickie Kent, 5 Wilson Park Drive, and James O. Tate, 3238 Aubrey Ave.

## Trailriders to give public show Sunday

The public is invited to view a special "Fun Show" at 1 p.m. Sunday, sponsored by the Trailriders Saddle Club of Granite City, at the club's arena circle located on Chouteau Slough Road at Rock Road, near the Chain of Rocks Canal.

Presentations of trophies to riders who have accumulated the highest number of points during the spring-summer season in about 18 categories of competition will highlight Sunday's event. The awards ceremony will initiate activities at the fun show, scheduled to start promptly at 1 o'clock Sunday.

In competition at the Trailriders arena during the Labor Day weekend, more than 100 horses and riders participated. The contest marked the last high point meet of the current season.

The winning rider, event and

mount are listed in sequence as follows:

Lori Chappell, pony pleasure, Trigger; Lisa Foley, pony poles and pony barrels, Rusty Jack; Gary Dalton, senior poles and senior barrels, King; Ricky Elliott, junior barrels, Teesto; Guy Jackson, junior poles, Pistol Pete; Danny Bowman, flag race, Boss; Junior Wellos, flag race, Yogi Bear.

Gary Dalton, halter-geckings, Sargent Hobby; Frank Ralph, halter-mares, Punched Katie; Beverly Nann, senior bareback, Neela; Tammy Maeras, junior bareback, Bodie's Star; Pattie Bryarly, senior western pleasure, Wimpy's Maybell; Sandy Smith, junior western pleasure, Wantago Folly; Sam Warner, gaited pleasure, Black Beauty; and Joyce Heney, footrotting contest, Midnight Moon.

## Local levee sessions voted

A resolution to hold meetings "as designated" here was approved unanimously by the East Side Levee and Sanitary District yesterday in East St. Louis.

The resolution was modified from one presented by the Namoki Township Trust and Action Committee, which had called for every other meeting in the Quad Cities.

The board approved the district's payroll but declined to pay all claims because two pages of claims had not been included in copies mailed to board members.

A new two-year contract with Operating Engineers Local 149 was approved, with 30-cent per hour increases. The board also discussed Local 149 members as the only workers who can operate the district's pumps.

Permission was granted Southwestern Electric Co. to install a three-phase electrical line to new water level control gates at the outlet of Horseshoe Lake.

## Moss hurt last night

Gerald Moss, 50, of 1639 Sixth St., Madison, Illinois Pacific Transport Co. official and an owner of the Barn Theater in Ellisville, Mo., was injured when his auto was struck by a Terminal Railroad Association engine at the State Street crossing near 14th Street at 6:35 p.m. Wednesday.

The auto burst into flames upon impact and Moss was pulled from the wreckage by Glen Morgan, it was reported. Spectators nearby extinguished the car fire. Firemen, an ambulance and police responded to the call.

Moss, who could not recall the accident, was taken to St. Elizabeth Hospital and was admitted with abrasions to his legs and left elbow.

**ALL THE FISH YOU CAN EAT FRIDAY, 8:49 AT GRANTS**

## Girls' clubs to begin Monday

The Tri-City YMCA again is offering a comprehensive program for high school girls through Tri-Hi-Y club.

This program is open to all high school girls in the area—9th, 10th, 11th and 12th grades.

"Come down to the 'Y' on Monday night, Sept. 10, 11 or 12 and we will be happy to explain the program. If you bring along all girls interested in being in your club, we can start you right away," a spokesman said.

The clubs consist of 25 girls each, not all in the same grade, and two advisors.

"If you are a high school girl interested in working with a club to help yourself and your community with worthwhile charity projects, then you are what we are looking for in the Tri-Hi-Y program," the spokesman continued. "It isn't all work and no play; there is a lot of social activity."

"Monday night has been

designated as teen night, so after your club meeting you can go for a swim; the gymnasium also is available. Members can learn to swim, attend a fitness class, learn to dance, and lots more."

Prospective members are to enter the Teen Town entrance on 20th Street and see Mrs. Marty Herman, Tri-Hi-Y Club coordinator. Information is offered at 876-7200.

**ALL THE FISH YOU CAN EAT FRIDAY, 8:49 AT GRANTS**

## CRASH HURTS FOUR

The autos of Darwin Bretsch, Belleville, and Ronald Garofoli, 2101 Hildebrand Ave., collided at Nameoki Road and East 27th Street at 6:50 p.m. Tuesday, injuring four passengers. Sustaining minor injuries were Cecile Ryan, 72, of Union, Mo., and Kathleen Ryan, 2, and Ryan Ryan, 4, both of Belleville. They were passengers in the Bretsch car. Mary Bush, 20, of 2045 Hildebrand Ave., Madison, also suffered a minor injury.

**MENU AT SCHOOL**  
Monday's lunch at St. Elizabeth School will include Sloppy Joe, mashed potatoes, green beans, fruit, bread and butter.

# North has enthusiasm, world soccer champ

Fans mourn cyclist, 19

By KEN THOMPSON  
Press-Record Staff Writer

Bob Kehoe has a background in soccer that goes back 27 years, as both a player and a coach, including leading a U. S. World Cup soccer team to a world championship.

He also coached the St. Louis Soccer Stars all the way to the top of their division, before taking the reins as that team's public relations director. The latter role included conducting free soccer clinics for children in this area.

This month, he will lead the new Granite City High School North Steelers soccer squad into battle against Gibault at Waterloo, with high hopes that the team virtually built from scratch can be at least partially competitive.

"Just one year ago this month," he told the Press-Record this week, "I was the coach of a World Cup team."

"Now, as a high school coach, I am using the same tactics to train and guide the players that I employed on the professional level."

Kehoe feels he won't necessarily get the same results because "on one hand we are talking about a professional player and here we are talking about a group of high school kids. The intensity of the training cannot be as great

because of the difference in age."

Kehoe said that from his experiences, he has learned that the only way to build a good soccer team is by repetition.

"You teach them the right things from the beginning and keep doing it over, and over, and over again so that they first master the skills and then the strategy."

"Discipline," he said, "is one of the big things. I have given my boys a list of things that they must adhere to in order to stay on the team."

He feels that the players may think his rules are hard and terrible right now, but in the years to come they will recognize them as part of the discipline needed to help them through the rest of their lives.

Kehoe said that soccer is a strange, foreign game to his new team, not just because the game had its inception in Europe, but because every one of the other U. S. sports involves use of the players' hands.

"The first thing we say when we try to teach them the game is not to touch the ball with their hands," the coach noted.

The Steelers have to learn the art of heading the ball, which he compared with hunting in baseball, and to run with the ball at full speed and keep it close enough to their feet to be able to change its direction at any given moment.

"It is a very difficult thing to

**SOCCER STEELERS OF 1973.** Front row, from left, Ricky Worthen, Greg Ely, Harvey Breckner, Kevin Gavlick, Denis Roberson, Jeff Larner and Jim Louis. Back row, from left, Doug Reinhardt, Dwight Lewis,

John Harding, Mike Demaree, Dennis Jones, Rick Demaree, Dan Sedej, Bill Schlatter, Head Coach Bob Kehoe and Assistant Coach David Ames.

(Press-Record Photo)

do. It requires hours upon hours of practice to be able to perform the feat with perfection, and that's something we don't have enough of.

"There are some freshmen and sophomores at this school," he continued, "who in another two or three years will be very good, players."

"In fact, there are some seniors here at North who have good talent. But they'll have to further discipline themselves to channel and use that talent to

the maximum."

"Two players have enough game experience against competitive teams that it will be very valuable in helping me to shaperand form the squad."

The players referred to are

Harvey Breckner and Dennis Jones, who last year were part of the Warrior soccer squad that captured the state championship. They were acquired by North through the creation of a second high school in the Granite City District.

"They are both excellent players, and I am going to have to depend on them to help establish the control and coolness that this team is going to need on the soccer field," Kehoe commented.

He said that 50 came out for practice last month whereas he had expected only 20.

"This is a good sign to me," he said.

"I feel the interest is here. Now it's up to me to help this interest spread, and help the boys to improve and to continue to enjoy playing the game."

Kehoe said his team is not yet ready for the opening game against Gibault on Sept. 13, because there hasn't been enough time to work with and prepare them fully. But he does feel that they'll hold their own.

"The school will not be embarrassed by having these boys on the field," he said. "We'll give a good account for ourselves."

"In the years to come, we'll become stronger and stronger and one of the most competitive teams in the state."

"And who knows," Kehoe concluded, "maybe North can bring another state championship back to Granite City just as South did last year."

Ray "Chuck" Obermeier, a rookie competitor this year in the motorcycle racing programs at Tri-City Speedway, was killed in a racing accident during the weekend at the Sparta Fairgrounds Speedway.

Obermeier, 19, of Belleville, was a member of the Suzuki racing team and was the 1972 District 18 Midwest champion. The highlight of his short career came on July 4 of this year when he defeated several of the top professional riders in the Midwest in racing competition at Cape Girardeau, Mo.

One of the top money winners in cycle racing at Sparta, Obermeier fell during a practice session before the regular racing program and was struck by another cyclist.

Many former schoolmates, friends and competitors attended the funeral services held Tuesday in Belleville.

## Mercer in title series

Hoping to go all the way to the top Inter-City Baseball League playoff trophy for 1973, the Mercer nine of Granite City will play the Indians at Piasa at 2 p.m. Sunday as a best-of-three series opens.

It will be Vic Reznack pitching for Mercer, with Pat Harris or Reznack starting in the return game Sept. 16 at Wilson Park. The season division leaders, East Alton and Collinsville, have been eliminated.

## Soccer Warriors will play alumni

Gene Baker, a former soccer star and the new soccer coach at Granite City High School-South, will lead that school's staff against alumni of the Warrior soccer team in an exhibition soccer game at 6 p.m. Saturday at the school's soccer field.

Four members of the 1972 state championship team, Steve Powterly, Pete Musahl, Phil Hill and Rich Worthen, will lead the alumni team in action against Baker's 1973 squad.

## Midget, stock, hobby cars to race Friday

St. Louis Auto Racing Association midget cars will compete on the half-mile dirt oval at Tri-City Speedway along with the regular late model and hobby stock racing program tomorrow evening.	
A spokesman for the association said all proceeds earned by the drivers, and from the sale of its 52th anniversary yearbook at the track, will be donated to the family of Ronnie Taylor of St. Louis.	
Taylor, present midget point leader, remains in critical condition at the University of	
Missouri Medical Center at Columbia from injuries received in an auto accident three weeks ago.	
He had been a regular competitor at the local speedway a few years ago, in both the sprint and midget divisions.	
Russell Wallace, Arnold, Mo., last week's feature winner in the late model stock car division, will attempt to make it two in a row: time trials in the regular racing program begin at 7:30 and the first scheduled event starts at about 8:30 p.m. Friday.	
meet the Belleville Devils in a 3 p.m. game.	
The Pee Wee and Midget classes have eight teams in each of the divisions, North, Central and South, for a total of 24 teams in the Quad-City area.	
The Pee Wee division consists of boys who had not reached the age of 11 prior to this month and the Midget division is made up of boys who had not reached the age of 13.	
Bob Patrick, Little Rascals president and head coach of the	
Pee Wee division, said the football conference includes 15 different organizations and that local teams are the newest, having just been formed this year.	
Patrick said the Rascals will be competing against teams with experience, but he feels the players here will progress with each game.	
The general public is being invited to attend Sunday's games and to support the program and players.	

## Boy's tackle grid club to open season Sunday

The Tri-County Junior Football Conference, consisting of 72 boys' tackle football leagues from 13 area cities, will open its 1973 season this weekend.

Among those leagues is the newly formed Granite City "Little Rascals." The local program will open its season Sunday at the Granite City High School-South football field.

The Pee Wee team will host the Collinsville Raiders at 1:30 p.m., and the Midget team will

ON A DAY LIKE TODAY...The problems may seem routine to the staff of the public service center in the secretary of state's office, but to the taxpayer involved they are often grim and complicated. On a typical day, some of the 14 staffers in the center located in the Centennial Building deal with walk-ins and phoned inquiries regarding drivers' licenses, motor vehicle registrations and titling. Section supervisor Mrs. Margaret A. Ackerson (standing in the far corner, light dress and upswept hairdo) advises one of the girl staffers.

## Public service division lives up to its name

By JOAN MURARO  
Capey News Service

SPRINGFIELD — Arnie Averagney has a problem which involves dealing with the State. By the time he solves it, Arnie usually feels like a minnow trying to tangle with a whale.

To get the relationship back into a more normal perspective, the secretary of state's office has a special public service division where Jane Just-folks can go and talk, one-to-one, with a person — not a computer, not a data bank, not a punch card, not a recorded voice, but a people.

The end result in 90 per cent of the cases is that Jane and Arnie will leave the office with their problems solved, without even having had to do that old classic, the Taxpayer's Troop, which involves trudging from the first floor to the third floor to the second floor to the annex across the street to the other annex across town to be sent back to the first office and told to come back next week.

Only 14 people of the 3,854 now employed by Secretary of State Michael J. Howlett work in the public service center on the first floor in the Centennial Building. But those 14 deal with 1,650 to 2,000 personal interviews or telephone inquiries in an average week. When auto license deadline time rolls around the section stays open on Saturdays as

well as 8 a.m. to 4:30 p.m. Monday through Friday, and the total served climbs sharply.

In the big, cheery blue-walled room, the public service center staff deals with questions involving driver's licenses, motor vehicle registrations and titling, and handle problems relating to passenger cars, trucks, trailers, motorcycles, buses and recreational vehicles.

Three windows in the office handle over-the-counter sales of license plates for vehicles, issue temporary driver's licenses and deal with special-type licenses where justified.

Mrs. Margaret A. Ackerson, supervisor of the section, said she is not aware of a question yet that the staff either couldn't answer at once or find an answer for quickly. If the citizen does have to go somewhere else for service, the staff can at least direct him to the proper office, with-out time-consuming side trips. Most of the section's work is pretty routine, she said, though occasionally something a little different comes along — like the young man who had toured the world, brought back a motorcycle which he duly registered, but wanted to keep his original, foreign-issued purchase documents. She worked it out for him.

Sometimes people don't realize they must change their titles if they convert a pickup

truck to a camper, she says. Sometimes they send too little money and sometimes they send too much. Each situation represents a problem that must be solved.

The crew which deals with these problems is recruited from other divisions in Howlett's office, and given an intensive three-month training program which usually begins in the mail section where they spend a week or so learning to pin papers together — one way if one transaction is involved, another way if more than one is being handled — to speed up processing.

Staffers must learn as well to operate a cathode ray tube which looks like the offspring of an illicit union between a TV set and a typewriter. Linked electronically to the driver's license master file, it allows the staff to verify, within seconds, the status of a driver's complete record. The ground floor location makes public access easy. Two information desks direct walk-ins to the proper persons to see, and two other staff members are notary publics, who provide service without charge when notarization is required. For security, a secretary of state investigator is assigned to the office, but raised voices are rarely heard in the office, and most of the "customers' exit laughing — or at least smiling, their problems in hand and the bureaucratic whale back on the beat.

## SIUE Nursing Students Learn 'Patient-Centered' Care

Nursing students at Southern Illinois University at Edwardsville learn through a problem-solving process the fundamental functions and skills of nursing by planning and administering patient-centered care in community clinical facilities.

The emphasis in the SIUE clinical nursing program is placed on three principles considered basic to all nursing: maintaining the individuality of the person, maintaining physiologic functioning and maintaining a safe environment.

Nursing students at SIUE begin their clinical experience in their sophomore year in a course entitled "Introduction to Clinical Nursing," a six credit-hour course. Four of the six credit hours are theory and

two are clinical, but the two types of instruction are carefully coordinated. The students may enroll in courses in the fall, winter, spring or summer quarters. In the clinical setting, students have opportunities to apply principles learned in the classroom and also are given the opportunity to provide patient care.

This summer, some of the nursing students are getting their clinical experience at St. Elizabeth's Hospital in Granite City, and others are assigned to Christian Welfare Hospital in East St. Louis.

Some factors included in this course utilizing the problem-solving approach are prevention and control of infection, maintaining a therapeutic environment, administering therapeutic

agents, care of the patient with wounds and irregular body functions and care of the terminally ill.

The basic objectives in the introduction to clinical nursing course are to consider the needs of the patient and the family, to demonstrate judgment in the application of nursing care, to increase knowledge and to improve nursing skills. SIUE has 27 sophomore students doing clinical work this summer. There are 19 women and 8 men.

Meeting the needs of the total patient is stressed in the student's clinical experience. These needs may include such activities as changing a patient's dressings, taking blood pressure, pouring and administering medications, preparing an intramuscular injection, and bathing patients.

BREATHING HELP—Jane Boden, Scott Air Force Base, a nursing student at Southern Illinois University at Edwardsville, assists a patient with his breathing with a Bennett machine at Christian Welfare Hospital in East St. Louis. The patient is Freddie Dennis, a resident of East St. Louis. The machine forces air into the lungs of the patient. (SIUE Photo)

TEAM EFFORT—Nursing students Cathy Cornell (left), Elk Grove Village, and Jan Baldwin (right), Naperville, discuss a patient's chart at Christian Welfare Hospital in East St. Louis with their instructor from Southern Illinois University at Edwardsville. The instructor is Rosalyn Sykes (center) of St. Louis. The SIUE clinical nursing program stresses team effort in formulating a nursing care plan. (SIUE Photo)

### J. W. Bladdick, 69, dies

John William Bladdick, 69, of 2915 Cayuga St., a retired steelworker and lifelong resident of Granite City, died at 12:50 a.m. today at St. Elizabeth Hospital.  
He had been ill five years and a patient at the hospital one week.  
Mr. Bladdick retired three years ago from General Steel Industries after working there as a molder for 42 years.  
He was a member of St. Joseph Catholic Church.  
Survivors include his widow, Mrs. Marguerite Bladdick; one daughter, Mrs. George (Alberta) Buhmann of Granite City; three sons, Joseph A. and

James D. Bladdick, both of Granite City, and Airman Charles L. Bladdick who is serving with the Air Force in Germany; one sister, Mrs. Myron (Nellie) Rule of Wood River and 11 grandchildren.  
Funeral arrangements are given in the obituary column.

### Grabowski dies in home

Bruno Grabowski, 53, of 931 rear Niedringhaus Ave., was pronounced dead at home at 11:45 a.m. Wednesday by Edward Werner, Madison County deputy coroner.

He was found dead in bed by a neighbor, Robert Leigh, 831 Niedringhaus Ave., who called Granite City Police. There will be an inquest.

Mr. Grabowski, a part time janitor, apparently had been dead several days, authorities said.

He is survived by a brother, Edward Ronzia of Kenosha, Wis.

His remains were taken to the Piascki Funeral home in Kenosha where services are pending.

## Frizzell-Hutchens nuptials

An out-of-town wedding of interest here was that taking place Sept. 1 of Miss Deborah Ann Hutchens, a daughter of Mrs. Maxine Hutchens, 1905 E. Minnesota Ave., Peoria and the late Floyd A. Hutchens, and Charles Michael Frizzell, son of Mr. and Mrs. Benjamin H. Frizzell, 3125 Garfield Ave., at the Forrest Hill United Methodist Church in Peoria.

The Rev. Leo C. Daring officiated at the double ring ceremony at 2 o'clock in the afternoon before an altar decorated with arrangements of gladioli and carnations. Appropriate nuptial selections were provided by Mrs. John Elan, organist.

Given in marriage by her brother, Raymond A. Veach, the bride wore a full length gown of sheer nylon organza with delicate embroidered lace lavishly accenting the Empire bodice and leg-of-mutton sleeves.

The A-line skirt was fashioned with a deep flounced wide flare hem terminating in a full chapel length train.

Her bouffant nylon tulle veil was secured to a nylon bow and petals etched with pearls and she held a bouquet of white roses, baby breath and carnations.

Matron of honor, Mrs. Jean Scott, and bridesmaids, Mrs. Sharon Dwyer, a sister of the bride, Mrs. Catherine Hutchens, the bride's sister-in-law and Miss Pam Beck, the bride's niece, were gowned alike in delicate tulle chiffon.

Their dresses were created with white bodices, accented at the waistlines with a tiny bow. Lace ruffles and rosettes enhanced the necklines and stand up collars.

Each attendant wore a band of fresh pink roses in her hair and held a single long stemmed pink rose.

The groom chose Robert Wilming as his best man, Charles Hileman, Richard Frizzell, a brother of the groom, and Jeff Lebarger served as groomsmen. Seating the guests were Ronald Hutchens, a

**MR. AND MRS. CHARLES FRIZZELL.** They were married at the Forest Hill United Methodist Church in Peoria, Ill. She is the former Miss Deborah Ann Hutchens, a daughter of Mrs. Maxine Hutchens of Peoria and the late Floyd A. Hutchens.

brother of the bride, and Richard Skiball. Members of the wedding party and their families were entertained at a rehearsal dinner at Junior's Castle Lodge in Peoria.

Guests were received by the newly married couple at a church reception immediately following the ceremony.

Mrs. Hutchens, mother of the bride, selected a floor length gown of aqua polyester crepe enhanced with a rhinestone trim on the collar.

The groom's mother, Mrs. Frizzell, was attired in a formal length dress fashioned in

shrimp colored fabric. A 1971 graduate of Woodruff High School, the bride graduated this year from Illinois Central College in Peoria. She is planning to continue her education.

Mr. Frizzell was graduated in 1965 from Granite City High School and in 1972 from Bradley University, where he was a member of Phi Kappa Tau Fraternity. He is now employed as an electrical engineer by Factory Mutual Engineering.

After a wedding trip to Mill Lac, Minn., the couple will reside at 2113 Prentiss Drive, Downers Grove, Ill.

## Varied theatrical schedule

The University at Southern Illinois University at Edwardsville will stage a "mixed bag" during the 1973-74 season.

William Vilhauer, director of the SIUE theater program, reports.

"It's probably probably the most varied season we've ever offered," Vilhauer said.

The season will open Oct. 31 with Christopher Marlowe's *Dr. Faustus*, directed by Thomas Herthel of the SIUE speech and theater department. The play will run through Nov. 1.

The Marlowe drama will be followed Nov. 16 by SIUE's Ninth Annual International Dance Festival, a program featuring the modern dance companies of Stephens College, Chicago Circle of the University of Illinois and SIUE.

No Place to Be Somebody by Charles Gordon will be performed Dec. 5-8. The Pulitzer Prize winner will be directed by Linda Hodges and will serve as SIUE's entry in the American College Theater Festival.

Vilhauer said.

The 1973-74 season will turn into the new year with *West Side Story*, the Bernstein-Sondheim-Lawrence musical, which will run at the local campus Jan. 25-Feb. 2. Al Wilbur will choreograph and direct.

U.S.A., a cavalcade of America in the first half of the 20th century, will follow on Feb. 27-March 2. The Dos Passos

Shyre work will be staged by Paul Wagner, a graduate student in directing.

Four productions will be presented during the spring quarter at SIUE.

Opus '74, a concert of student choreographed dance works, will be presented April 4-5. Prokofiev's *Peter and the Wolf*, to be directed by Gayle Kassing, will be staged on campus April 9-13.

Moliere's *School for Wives*, directed by W. Craven Mackie, is scheduled May 8-11; and *Dance in Concert*, featuring works choreographed by faculty members, will be presented May 24-25.

Certain time for all productions except *Peter and the Wolf* will be 8:15 p.m. in the Communications Building theater.

SIUE students will be admitted free, except to *West Side Story*. Admission for high school students will be \$1.

Single admission for other adults will be \$2. Groups of 15 or more and senior citizens will be admitted for \$1 tickets.

Children under 12 will be admitted for 25 cents.

**'BREATH OF LIFE' WEEK** proclamation signing by three local mayors is witnessed by four children who are victims of Cystic Fibrosis, an inherited lung-damaging disease. Front row, from left to right, are Joey Donaldson, 6 years, Madison Mayor Mike Sasyk, Karen Kalkbrenner, 9 years, Mayor John Lee of Venice, Melinda Lux, 4 years, Mayor Paul Schuler of Granite City, and Billy Donaldson, 3 years old. In the background are Mrs. Carl Kalkbrenner, mother of Karen, Mrs. James Worthen, Quad-City drive chairman and grandmother of Joey and Billy, and Mrs. Leonard Harper, an aunt of Melinda and door-to-door march chairman for Madison. (Harry Fecite Photo)

## Cystic Fibrosis drive to start

A proclamation urging assistance for six million children suffering from lung-damaging diseases has been issued by the mayors of Quad-City area communities—Mike Sasyk of Madison, Paul Schuler of Granite City, John E. Lee of Venice and Floyd D. Moss of Pontiac Beach.

The mayors named September "Breath of Life Month" and are urging all citizens to support the National Cystic Fibrosis Research Foundation's fund-raising drive on behalf of the youthful victims.

Door-to-door marches in the Quad-Cities are scheduled to start Sunday and conclude Sunday, Sept. 16.

Mrs. James (Alice) Worthen, 1973 campaign chairman in the Quad-Cities, stressed the importance of all families becoming more aware of the symptoms of cystic fibrosis and other lung-damaging diseases, and more informed about the programs of research and care available.

"CF is inherited when both parents carry the defective gene, usually without knowing it," she said. "Possibly one in every 20 persons may be a carrier of the C-F gene, or about 10 million people in the United States. Although cystic fibrosis still is incurable, improved therapy is now helping many affected children survive into their teens and young adulthood, Mrs. Worthen explained.

Mayor Schuler commented upon signing the proclamation, "There has been a tremendous upsurge of scientific interest in genetic diseases throughout the world. This heightened interest will benefit research under way to find a control for C-F, which is considered a model for genetic disorders."

Mayor Sasyk praised the 110 cystic fibrosis treatment centers which provide medical care to children with such chronic respiratory ailments as asthma with lung damage, chronic bronchitis, bronchiectasis and a condition sometimes known as childhood emphysema.

All have symptoms in common with those of CF and respond favorably to the treatment designed for C-F patients.

"Most of us are lucky and don't have to think much about the act of breathing," Mayor Lee said, "but these children can't take breathing for

granted. They need our support and understanding and we hope every citizen will regard their struggle for the 'breath of life' as a very personal matter."

Witnessing the proclamation signing were four children who know first-hand the tragic circumstances of cystic fibrosis.

Karen Kalkbrenner, 9-year-old daughter of Granite City Fireman and Mrs. Carl Kalkbrenner, will enter the 4th grade this fall. She is a pretty active child who loves to talk, but she takes an average of 27 pills each day, receives aerosol therapy three times daily and sleeps in a mist tent at night.

Joey, 6½, and Billy, 3, are the sons of Mr. and Mrs. Carl Donaldson and the grandsons of Mrs. Worthen, the drive chairman. Both were infants when physicians diagnosed their ailments as cystic fibrosis. Joey, a 2nd grade pupil, receives medicated aerosol therapy four times daily.

Mrs. Dorothy Fitzpatrick of Orlando, Fla., will be guest of honor at the club's first fall meeting.

**FORMER RESIDENT VISITS HERE WITH SISTER**

The Past Matrons Club of Granite Chapter 650, Order of Eastern Star, will resume its regular meetings at 7:30 p.m. Monday in the home of Mrs. Hilda Griffith, 2652 Iowa St., according to an announcement by the president, Mrs. Mary Bilbey.

Mrs. Dorothy Fitzpatrick of Orlando, Fla., will be guest of honor at the club's first fall meeting.

**STEAL FOOD FREEZER**

An upright food freezer was removed from the second floor hallway outside the apartment of Betty Bailey, 3223 Maryville Road, Apartment 6. It was reported Tuesday. Evidence that an appliance moving truck was used to take the unit down the rear stairs was found. A red stake truck was seen leaving the rear of the building as the resident returned home.

postural drainage, sleeps under a mist tent nightly and takes several varieties of medication before and after meals. He and his younger brother, Billy, whose daily and nightly regimens follow the same unvarying pattern, are very active children. A third Donaldson brother, David Lee, died in 1968 at the age of 2½ years, a victim of the disease.

Melinda Jo Lux, 4 years, is a daughter of Mr. and Mrs. Richard Lux and a granddaughter of Mr. and Mrs. Herman O'Dell of Madison. She will start nursery school this month despite the necessity of receiving aerosol therapy four times a day and postural drainage twice daily. She also takes Cotazym before each meal to help digest food, a serious problem which inflicts cystic fibrosis victims.

Mrs. Worthen today announced that Mrs. John (Margaret) Lee will head the door-to-door drive in Venice and Marvin Ribbing will supervise solicitations by volunteers in Pontiac Beach.

Mrs. Leonard (Brenda) Harper, an aunt of Melinda Jo Lux, is leading the Madison march and Mrs. Worthen will personally direct the Granite City campaign, she reported.

Mrs. Dorothy Fitzpatrick of Orlando, Fla., will be guest of honor at the club's first fall meeting.

## AAUW plans guest night

Future plans for a "guest night" sponsored by the American Association of University Women was the topic of discussion at the executive board meeting of the group held Tuesday afternoon in the home of Mrs. Elizabeth Edwards, 3024 Iowa St.

Guests are welcome to attend the first regular meeting of the new season Thursday, Sept. 13 at the First United Presbyterian Church, 22nd Street and Delmar Avenue. Officers said. A vacation auction and musical program is planned, followed by refreshments.

Anyone wishing further information about the AAUW event may call 452-4113, Mrs. Edwards said.

Mrs. Dorothy Fitzpatrick of Orlando, Fla., will be guest of honor at the club's first fall meeting.

## Dottie Rogers becomes Mrs. Damian Caffrey Jr.

Burning tapers in hurricane lamps illuminated the white carpeted aisle and large bouquets of orchid 'mums, yellow carnations, purple statice, baby breath and greenery adorned the altar of St. Mary's Roman Catholic Church in Madison for the Aug. 31 wedding of Miss Dottie Jean Rogers and Damian Emmanuel Caffrey Jr.

Antique wedding bands were exchanged in the chapel. Elements provisions in the glass. For her wedding, the bride appeared in a white silk organza gown fashioned with a Venise lace bodice featuring a high stand-up neckline.

The lantern sleeves of organza were capped at the shoulders with lace and the wide cuffs were lace trimmed. The skirt, slightly gathered at the sides and back, was bordered with a narrow lace ruffle. She wore a full length mantilla veil edged in scalloped Venise lace and held a traditional chutch bouquet of long stemmed roses, carnations, daisies, cornflowers, statice, and baby breath with a garland of greenery.

Parents of the bride are Mr. and Mrs. Marvin D. Rogers, 327 Park Ave., Wood River. The groom is a son of Mrs. Timothy Burns of Collinsville and Damian Caffrey Sr. of Granite City.

The maid of honor was Miss Teresa Rhoads, an aunt of the groom. The bridesmaids included Miss Phyllis Rosenberg, Miss Lann Deemeyer, Miss Toni Caffrey, the groom's sister, and Miss Carolyn Uhas, the bride's aunt.

They wore lilac voile over taffeta dresses made with Empire waistlines, long sheer sleeves and high necklines accented with white puritan collars trimmed with tiny white ruffles.

White Venise lace marked the crescent waists and cuffs, and the A-line skirts, extending into a slight train, were bordered with a floral print ruffle, enhanced with a row of Venise lace.

Each girl wore a yellow spun straw hat with lilac satin ribbons and carried a small clutch bouquet of multi-colored flowers.

Larry Burns, the groom's half brother, attended him as best man. Groomsmen included Terry Rhoads, a cousin of the groom, James and Dennis Caffrey, brothers of the groom, Robert and Mike Rogers,

brothers of the bride, and Kevin Lacquement.

Guests were received by the newly married couple at a reception held at the Madison Firemen's Hall.

After a wedding trip to the Carbondale area, the couple will reside in Madison.

The bride is employed as a practical nurse at St. Elizabeth Hospital. Her husband works out of Transfers Local 525. He also is a registered Emergency Medical Technician with the Medical Technicians Association.

**THE KENDALLS**, radio and recording stars, will be in the spotlight Sunday at the Fall Festival of the Mitchell Athletic Association. The Kendall family will make two appearances at 7 and 9 p.m. The festival opens tomorrow and will continue three days.

## Mitchell festival opens Friday

Entertainment by television, radio and recording stars will be among the highlights of the 14th annual Fall Festival sponsored by the Mitchell Athletic Association at Mitchell Friday through Sunday.

The annual festival is held as a benefit to raise funds for support of the association's athletic program and to add to a building fund for a new park and athletic building. The event last year attracted more than 5,000 persons and raised \$18,000.

The fair will be held at Greenway Village between Interstate 270 and E. Chain of Rocks Road.

Headline the list of entertainment this year will be Stan Hittchock, a television and recording star. He will entertain audiences during two shows Saturday night.

Crystal Gayle, television, radio and recording star, will entertain the preceding night and the Kendalls will be in the spotlight Sunday.

Sounds Unlimited will appear each evening and the Tambourines will be added to the shows Saturday and Sunday. The Walt Schlemmer Band will entertain Friday.

All shows are free. A fee of \$1 per car is charged for parking. A visit by Corboe the Clown is scheduled for 2 p.m. Saturday, and afternoon matinees for children with reduced prices for rides are set Saturday and Sunday from 2 to 5 p.m.

The annual sports trophy presentation ceremony will be held at 2 p.m. Sunday with awards given for softball and baseball achievements.

The Mitchell Athletic Association last year sponsored 15 boys' baseball teams, eight soccer teams, 15 girls' softball squads, three football teams and 16 boys' basketball teams. Each year more teams have been added.

## State is continuing park flood repairs

Springfield — The U.S. Forest Service has allocated \$22,500 to the Illinois Department of Conservation to be used in clean-up operations in department-owned properties damaged by the spring floods.

Early estimates indicated total damages might run to a million dollars on parks, launching areas, access areas and conservation areas controlled by the department.

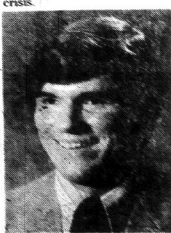

All park facilities are now operable, though in some cases repairs have been of a temporary nature, with shale or gravel roads put down to replace permanent roadways washed out in flooding.

The reservoirs at Rond Lake, Carlyle Reservoir and Shelbyville Reservoir are all still well above flood stage, however, and boat launching in these areas is "impossible" according to Glenn Harper of the department's Education Division.

Department Director Anthony Dean has instructed the staff to continue negotiations to see if additional funding can be obtained from the national forest service.

Talks also are being held with the U.S. Army Corps of Engineers to see if reimbursement can be obtained from that source for expenses incurred at the reservoirs.

Additional monies for repairs came from a \$25,000 emergency fund left from the last fiscal year, Harper said. This was used chiefly for immediate emergency projects, such as sandbagging during the flood crisis.

**REV. STEVE CALLERY**, evangelist and gospel singer, who will appear at Tri-City Park Tabernacle starting Sunday through Sept. 16. Special services will begin each weekday at 7:30 p.m. and at 7 p.m. on Sundays.

## Board cuts payment on fence painting bill

The Granite City Board of Education Tuesday night voted to pay only a portion of a bill from former Granite City Mayor Donald Partney for painting a fence which divides his home from the Logan School property.

Partney previously submitted a bill for \$1,089 for the work and requested that the board pay half the cost since the fence rests on the dividing line.

The board voted at its last meeting to investigate and had a private contractor estimate the cost of painting the 600 foot fence. The contractor's estimate was 15 cents per square foot, or a total cost of \$372.

The board Tuesday night voted to send a check for \$186, half of the estimated cost, to Partney, with a letter requesting him to contact the board in the future before undertaking maintenance of the fence.

Board Secretary George Moore Sr. said if the fence should need future maintenance, "We would have our own people do it or we would hire it, but I don't want this kind of arbitrary decision making in the future."

In other business, the board approved several purchases on bids received.

Triangle Typewriter and Supply Co. of Granite City was granted a \$16,708 contract for paper supplies as the lowest of three bidders.

Contracts for typewriter ribbons for the entire district for the 1973-74 school year were divided between the Rotype Division of Litton Co. with a \$646 award, and Franklin Manufacturing Co. with a \$330 contract.

Four bidders were chosen to provide school awards and insignias for athletics. Contracts were awarded to General Embroidery for \$560, Logan Knitting for \$1,718, Neff Athletic Knitting for \$1,280 and Economy Sporting Goods for \$80.

Separate contracts were let for the purchase of uniform decorations and ribbons. They went to Neff Athletic Lettering \$212, General Embroidery \$185, Logan Knitting \$376, Athletic Awards \$11, Awards by Kay \$112 and Economy Sporting Goods \$62.

A request from Tully A. Heubner, director of buildings and grounds, that additional seats be purchased for replacement purposes at the Granite City High School-South auditorium was approved. A total of \$391 was appropriated to

purchase the replacement seats.

Contracts with private cosmetology schools, identical to last year's agreements, were renewed by the board at the same cost of \$80 per pupil per semester. The district receives \$88 reimbursement.

Last year 58 pupils were served by cosmetology schools and an enrollment of 60 to 65 pupils is expected this year, the board was told.

A \$450 invoice was approved for repairs to damage at the South high school, caused by recent wind. Lakeside Roofing Co. of Granite City completed the emergency repairs.

An Edwardsville Motor Service bill for \$222 also was approved for work on the tractor and mower used at the South school.

The board approved bills of \$71,291 from the educational fund, \$18,954 from the building fund, \$501 from the joint agreement fund, \$5,370 from the new construction fund number 2, \$371 from Title II funds and \$26,325 for cafeteria disbursements.

## Mrs. Nechvatil dies at 83

Mrs. Mary Nechvatil, 83, of 7 White Lily Drive, Collinsville, formerly of Madison and East St. Louis, died at 4:15 a.m. Wednesday at Parkview Colonial Manor in O'Fallon, Ill.

A native of Yugoslavia, she lived in this area many years, moving to Collinsville four years ago. She formerly owned and operated the Leopold Hardware Co. in East St. Louis.

Mrs. Nechvatil was a member of the Czech-Slovak Society of America No. 404 of East St. Louis and Rajski Glas 250-Slovene National Benefit Society of Granite City.

Her husband, John Nechvatil, preceded her in death. Survivors include a daughter, Mrs. Tadeusz (Mary) Okai of Collinsville, one sister, Mrs. Christina Novakovich of Yugoslavia; four grandchildren and 17 great-grandchildren, two great-great-grandchildren.

Funeral arrangements are given in the obituary column.

### HELPFUL FOG

On Aug. 20, 1976, George Washington eluded the British in a dense fog and transported this army across the East River.

# OUTDOORS IN ILLINOIS

## This year's duck prospects are poor

By ART SCHUMANN  
Copley News Service

Prospects for the opening duck season are not bright at the present time. According to latest reports from U.S. Department of the Interior, waterfowl production this summer has declined because of the number of breeding ducks and the quality of wetland habitat.

Surveys of conditions for waterfowl are undertaken each year by the U.S. Fish and Wildlife Service, the Canadian Wildlife Service and Ducks Unlimited in the breeding areas of the North-Central United States and Southern Canada that supply the data on which the nation's fall waterfowl hunting regulations are based.

Completed surveys show a 30 per cent drop in the number of prairie potholes, and many of the remaining potholes have declined in quality. Potholes are glacier-formed ponds and lakes which, with the right combination of water and vegetation, provide ideal duck nesting habitat.

In the important breeding areas of Southern Saskatchewan, Southern Manitoba, Montana and the Dakotas, potholes are 20 to 50 per cent fewer than last year. Potholes in the Southern Prairie provinces numbered 2.2 million this year compared with 3.5 million last year and 3.5 million in 1971.

The decline is attributed to changes in precipitation patterns. Snowfall was light last winter and rainfall minimal so far this year.

The reports don't look good. Illinois duck hunters may find few ducks to shoot at this coming fall. We would still like to see duck hunting discontinued nationwide for two or three years to give ducks a chance to multiply.

I'm sure our duck hunters would gladly give up hunting a few years if it meant a return to the good shooting of a few years ago. Seasoned duck hunters have indicated they will buy their federal duck stamp this year but will not hunt.

They feel the few ducks they would bag may survive the season to nest next spring. Money from the federal duck stamps are used for the purchase and development of waterfowl habitat.

Already announced is this year's special nine-day teal season in Illinois. The season will be Sept. 15-23 and will be open for the taking of blue-winged, green-winged and cinnamon teal.

Hunting hours will be 7 a.m. to 4 p.m. daily, the bag limit is 4 birds per day, 8 possessors. Most teal migrate thru Illinois before the waterfowl season.

Hunters must have a hunting license and their 1973 Federal Migratory Bird Stamp. We never did agree with the special teal season.

Too many other ducks are shot for teal. In addition, the mallards and other ducks are shot for cinnamon teal.

There isn't one duck hunter in 10 who can positively identify a teal on the wing. The teal season only gives the poacher a legal excuse to be in the field harvesting ducks.

I'm certain many ducks are killed during the teal season each year illegally. Those 9 days of teal hunting just aren't worth having if it means ruining the local duck shooting season.

We would recommend that every prospective duck hunter obtain a copy of Sports Afield's handbook, "Know Your Ducks and Geese." This is less than a dollar and is an excellent manual for learning duck identity.

The handbook is sold at many sporting stands. Other hunting prospects appear bright in Illinois. The northern squirrel and dove seasons opened Sept. 1.

Southern zone squirrel hunting opened on August 1, which is the area south of U.S. 36. In the northern zone squirrel hunting should be excellent this year. The squirrel population is estimated to be 15 to 30 per cent above that of last year.

The squirrel season extends through Nov. 15. The limits are daily and 10 in possession. The dove is a migratory bird. Those that remain here locally and others migrating southward into Illinois are expected to stay as long as mild fall weather ensues.

Our state offers abundant

grain fields and weed patches (ideal foods for doves). Abundant rainfall this year has left numerous ponds and potholes as well as generously flowing creeks.

This combination is ideal habitat for doves and hunters could enjoy some of the finest dove shooting they've experienced in years. The limit on doves is 12 this year with a possession limit of 24.

The coyote season also opened Sept. 1, and closes Feb. 28. There is no bag limit on coyotes in Illinois.

Elsewhere, the Wilson Snipe and woodcock season opens Oct. 15, and extends through Dec. 15. Up and game season for duck, geese, quail, Hungarian partridge, rabbit, raccoon, opossum, skunk and fox opens Nov. 18. Quail numbers are up 10 per cent and the rabbit population is up some 30 per cent.

Fewer pheasants were bagged by hunters last year, but the population is up and biologists say it's virtually impossible to overharvest the cock pheasant. Hunting bag limits are now at the decision stage.

## BOOKS

### Focus on LBJ

LYNDON: by Richard Harwood and Haynes Johnson; Praeger; 187 pages; \$6.95.

Reviewed By JOHN PINKERMAN  
Copley News Service

Authors Richard Harwood and Haynes Johnson are assistant managing editors of the Washington Post and they had the opportunity to observe the late President Lyndon B. Johnson firsthand.

Their lavishly illustrated "Lyndon" seems to catch the nature of this sometimes tragic figure in both photo and words. "Lyndon Johnson was like America itself... he was both great and gross, full of promise and imperfections. He did more than the country realized or appreciated, and accomplished less than his own dream."

Before reaching this conclusion the authors have all kinds of favorable and unfavorable things to say about LBJ. They praise him for joining the Navy, even though his congressional status would have spared him any World War II role. However, they are somewhat less laudatory concerning the Silver Star some high Navy brass awarded him for being a passenger on a plane that was shot at by the Japanese. They note, also, that after only seven months' service, Johnson decided war was not for him; so, he got his release and returned to Congress.

But, the authors give mercurial treatment to what many have called Johnson's "Kennedy paranoia." LBJ through his lifetime felt he could never escape the Kennedy shadow and the Kennedy legacy. He seemed to see almost everybody as plotting against him because he succeeded the immensely popular assassination victim. As for Robert Kennedy, Johnson friends have said, "he didn't dislike Bobby, he just never trusted him."

Beyond these indiscretions in personal frustrations, these were the great domestic achievements that Johnson admirers can proudly be about. His achievements that amount to a social revolution; Medicare; aid to education; the massive farm program; the voting rights legislation; increases in cancer and other medical research. These victories are what make the Great Society.

The agony of the Vietnam war gets the full treatment, too, in "Lyndon," and the manner in which it brutally banished LBJ from public life is brought home again and again. The war cost him the closing tragedy of his life and it is a bit sad to read about its effect on this ambitious man.

Harwood and Johnson have done a good job putting into what might be called instant history the triumphs and disappointments of America's 36th president.

### FORM COMMITTEES

Members of the Theta Theta sorority will meet Sept. 11 at the home of Mrs. Donna Sprankle, 1528 Jay Ave. It will be a get-acquainted meeting and committees for the coming year will be established.

Those attending the unit's final summer social outing were Mesdames Sharon Rush, Linda Fickell, Ellen Cain, Pat Howard, Barb Dickerson, Pat Chasteen, Donna Sprankle, Sheri Best, Claudette Spanberger, Mary Baker, Julie Gates and Judy Russell and two guests, Mrs. Char Baldwin and Mrs. Sue Reese.

### VISIT NEW MEXICO

Mrs. Edith Ryan, 2888 Iowa St., and Mrs. Dorothy Ashley, 1732 Third St., Madison, have returned home from a week's vacation in Roswell, N.M.

The local women were guests of Mrs. Ashley's sister and brother-in-law, Mr. and Mrs. Fred Heely. The Heelys are former Granite Citizens, having moved to the Roswell area upon retirement.

Two of the "seven wonders of the world" were visited—Carlsbad Caverns and the White Sands National Monument. They also toured the Sierra Blanca Mountains.

### TERRACE GARDEN CLUB

#### PLAN YEAR'S TOPIC

Members of the Terrace Garden Club gathered at the home of Mrs. Myrtle Hickman, 2707 Center St., for a planning meeting. Arrangements were completed for the organization to study "organic gardening and foods" during the coming year.

Announcement was made that the September meeting will be held in Grafton at the country home of Mrs. Anne Reznack.

The hostess served a dessert course to Mesdames June Cuchna, Thelma Ruppel, Olga Tarpoff, Margaret Kirchoff, Shirley Rapoff, Tomea Kirchoff and Nettie Minner.

### School group lauds Walker

The Illinois Education Association yesterday praised Gov. Walker for taking "the first step toward bringing collective bargaining to public employees in Illinois."

Reacting to his executive order giving employees of the state negotiation rights, IEA President Mel Swiedarke said, "While this order gives thousands rights that have been denied them for decades, the employees most in need of such legislation are still given no rights under the law."

He said that of the state's 112,000 public school teachers, nearly 80,000 negotiate and do so without any legal guidelines regulating the process.

"The state employees affected by Gov. Walker's order are not now organized nor are they negotiating with the state. Teachers, on the other hand, have been negotiating for years but time and time again have been forced to strike for simple recognition and negotiating rights."

### Two rides planned by cycle club

The Great River Riders Bicycle Club will sponsor an afternoon ride Sunday, starting at Nameoki Village Shopping Center. The riders will leave the center at 2 p.m.

The ride will cover about 15 miles and will be led by Fay Liddell. Another ride will be held Saturday, Sept. 15, leaving the Nameoki Village Shopping Center at 7:30 a.m.

Riders have been asked to sign up for the Sept. 15 ride at 7 a.m. Two patches are available for that ride. Terry Ashby will be the leader.

### HURT IN CRASH

Two persons received minor injuries when the auto of Randall Rushing, 17, of 4844 Warnock Ave., and a Yellow Cab, driven by David Catterson, 2005 rear Lee Ave., collided Tuesday in the parking lot of Tri-Mor Bowl, 3701 Nameoki Road. Injured were Rushing and Lola Barker, 2000 E. 30th St., a passenger in the taxicab.

Featuring a wide selection of ready-to-enjoy specialties and quick-fix delicacies. They're sure to please.

### Eleven undergo major surgery

Patients at St. Elizabeth Hospital who have undergone major surgery since Monday: Suzanne F. Frizzell, 101 Ewing Ave.; Ernest L. Adams, 4013 Rode Ave.; John W. Bladdick, 2915 Cayuga St.; Evelyn M. Stapleton, 4810 Kirkpatrick Homes; Tony Petrillo, 1628 Olive St.; Andrew F. Zimmer, 2113 Garfield Ave. Annid Nighohossian, 1723 Chestnut St.; Ricky D. Ball, 134 Lee Wright Homes; Sandra Ross, 311 Weaver St.; Venice; Lela J. Miller, 2104 Edwards St.; Charlene Roberts, 725 Twenty-sixth St.

### Venice boys aid dystrophy drive

For the third time in as many years, Ronnie Martin, 15, of 516 Third St., Venice, and Craig Kalogerou, 14, of 217 Kerr St., Venice, have done their bit in behalf of the Jerry Lewis telethon to aid muscular dystrophy research. The two boys went from door to door in their neighborhoods during the weekend and collected a total of \$30.12 which was turned in to the St. Louis division of the MS telethon campaign. Last year the two boys collected \$30 in a similar effort, and in 1971 solicited a total of \$17.

### SOCIAL SIX CONVENT

Mrs. Lorraine Gonterman was hostess to the Social Six Canasta Club in her home, 3048 Lake St., Tuesday evening. Lunch was served by the hosts prior to a game period. Games were played, with prizes awarded to Miss Teresa Rhoads, Mrs. Nellie Zarzaski and Mrs. Helen Kuback. Others participating were Mrs. Julia Voloski, Mrs. Sophie Greene and Mrs. Zarzaski.

### AUTOMOBILE LOOTED

An eight-track tape player and FM radio unit was stolen from the auto of Rebecca Anderson, 2460a Benton St., it was reported at 8:30 a.m. Wednesday.

### BURGLARY ON STATE

Two tape recorders, a stereo, three watches, three rings, bed linen, four pillows, a mirror, three rugs, a sugar canister and other small items were reported stolen from the home of Gerald Myatt, 214 State St., at 6:25 p.m. Tuesday. The kitchen door was open and the bedrooms had been ransacked when Myatt returned home, he reported.

### RECOVER MOWER

A riding lawnmower was stolen Tuesday from the carport of Donald Hutchings, 2414 Bryan Ave., and was recovered by Madison County sheriff's deputies in the trunk of an auto they stopped at North Street and Logan Avenue. The driver of the auto ran from the car and escaped.

### FIRE DAMAGES CAR

Fire, caused by a carburetor backfire, caused about \$50 to the engine compartment to the auto of Thomas Campbell, 719 Twenty-sixth St., in the 2300 block of Adams Street at 9:10 a.m. Wednesday. Granite City firemen were on the scene 10 minutes.

### Sewer repairs

(Continued from Page 1) repairs has depleted the department's manpower to the point that the summer street maintenance program and other departmental activities are far behind schedule.

The discussion followed presentation by the Ernest firm of a claim for approval Tuesday night amounting to \$161,336 for work it already had done on sewer break repair jobs. The council took no action on the bill, referring it to the Street and Alley Committee for study and a recommendation.

The bill showed charges of \$1,000 per day for dewatering operations and \$1,000 per day for by-pass pumping operations. Of the total, \$73,000 represented the cost of dewatering and pumping at the Amos and Manley avenue sewer break over a 16-day period.

Other charges included \$42,500 for dewatering and pumping at the break on Franklin Avenue between Pontoon Road and Manley Avenue; \$20,500 for dewatering and pumping at a break on Boyle Avenue and \$21,000 in "mobilization charges" at the three projects.

The city has appropriated \$80,000 to pay costs of sewer repairs, but expects to receive most of the amount in federal disaster relief funds.

## Avoid unneeded x-ray exposure

By MARION WELLS  
Copley News Service

You should not only be concerned about radiation buildup in the environment, but also about the accumulated dose from diagnostic x-rays taken in your doctor's and dentist's offices.

Medical radiation, most of which is diagnostic, accounts for at least 90 per cent of our exposure to man-made radiation and 30 per cent of our exposure from all sources. It may be responsible for up to 7 per cent of overall ill health in the United States and cause genetic damage which will affect future generations, according to Karl Z. Morgan, Ph.D., president emeritus of the International Radiation Protection Association.

While x-rays can be important medical tools, much of our present exposure is unnecessary. Figures vary, but Dr. Morgan estimates that overall exposure from medical x-rays could be reduced to one-tenth of the present level without any loss of benefits. To guard against unnecessary exposure, learn to ask penetrating questions. First, are the x-rays ordered really warranted?

Have you been part of a mass chest x-ray screening program to check for tuberculosis? The U.S. Public Health Service recommends such programs ONLY for high incidence population groups.

Among the procedures listed, as probably unnecessary by a National Academy of Sciences committee, were mass screening for certain forms of cancer and routinely x-raying food handlers.

Do you have a full set of dental x-rays each year? The American Dental Association warns: "Radiologic examinations should not be used as an automatic part of every periodic or routine dental examination."

Are you a woman of child-bearing age? Your ovaries are very hard to shield. While the genetically significant dose of effective exposure to the reproductive organs of individuals of reproductive age decreased for males from 1954 to 1970, it went up 12 per cent for women.

Leading experts recognize that no radiation dose to the gonads is without risk. Radiation exposure damage is, to a considerable extent, cumulative. Susceptibility to the damaging effects of radiation is highest in the prenatal stages.

Combining data from 12 different studies resulted in a figure of 40 per cent higher incidence of cancer among children exposed to diagnostic x-ray study while in their mother's womb. In fact, several studies have indicated that there may be a rise in childhood malignancies stemming from diagnostic x-rays received by the mother before conception.

According to Family Health, "This means that the reproductive machinery of the mother had been altered by x-rays in such a way as to include an increased risk of cancer as part of the future child's genetic inheritance, and henceforth this inheritance may be passed from one generation to another."

Large doses of radiation given during pregnancy to treat gynecological disorders can reportedly have a variety of harmful effects on the unborn child. These include congenital abnormalities, an abnormally small head and mental retardation.

Other researchers suggest "an association between the incidence of mongolism and a history of maternal abdominal radiation."

Avoid unnecessary x-ray exposure, including routine pelvic x-rays for first pregnancies. Experts suggest that except in medical emergencies, necessary x-rays be limited to the 10 days right after the start of menstruation, when pregnancy is least likely.

Authorities recognize that children are more sensitive to radiation than adults. Take steps to minimize their exposure.

to the radiation was double. To focus on health, let's decrease radiation exposure.

The writer is Research Director of the American Physical Society Research Institute, 824 Moraga Drive, West Los Angeles, Calif. 90049.

# Granite City Press-Record Page 18 Thur., Sept. 6, 1973

**HURT IN ACCIDENT**  
John Thomson, 30, of 925 Iowa St., Madison, was admitted at St. Elizabeth Hospital at 10:30 p.m. Wednesday suffering injuries sustained in a motorcycle accident. Thomson suffered injuries to the right lower leg and to his lower ribs.

**CLUBHOUSE FIRE**  
The Mitchell Fire department answered a call at 12:15 p.m. Tuesday to Chouteau Island where a clubhouse belonging to Donald Branch was on fire. Cause of the fire is unknown and no damage estimate was made.

# HERE'S HOW

## Check if house merits remodeling

Q. We are considering remodeling our house completely. It is an old house. What should we do first, or is there anywhere to go for advice? — Rusty M.N.

A. You should put the skeleton of the house into good shape. That means correcting any obvious shortcomings,

such as roofing, siding, heating, electrical, plumbing and the foundation. These improvements will provide you with the essentials of a livable home and will provide the necessary basis for modernization and restoration. Before remodeling, however, determine whether the complete improvements you describe is

going to be worth the cost. There are bonded, registered remodelers in business who could give you this advice, plus an estimate of the cost. For such a complete project, you will need professional help. I am sure. Many old houses are worth remodeling. Others just won't merit the cost.

Q. The inside doors in our house are paneled — four panels in each door. Apparently due to drying out in the winter when the heat is on and expanding in the summer, the paint cracks where the panel fits the door. We have scraped

and sanded and used the best paint recommended by the paint store manager. However, we still have the problem. Is there anything we can apply to stop this? — Wildred E.

A. There is a fiber glass and mastic repair kit on the market designed to allow for contraction and expansion of wood. It is for mending cracks in wood or plaster. This will be a tedious job to apply, but should effect a permanent repair. Be sure to follow instructions on the container, and get the repair kit designed for indoor use. Then you can paint over the repair.

# BURGALARIZE LOUNGE

An undetermined amount of vending machines, a bowling machine and two cash registers at Eddie's Lounge, 2900 Namecki Road, it was reported at 6:40 a.m. today. A window and frame were torn from the wall to gain entrance.

# CASEY STRIKES OUT

On Aug. 21, 1967, Dan Casey, southpaw pitcher for the Phillies, struck out in the ninth inning, inspiring Ernest L. Tayer's immortal poem, "Casey At The Bat."

# HEART LINE

## Low-fat, low cost meals described

Copley News Service

In response to questions about how to cope with fat-related diets, here is a low-cholesterol, money-saving menu plan based on lower-cost products.

### BREAKFAST

High Vitamin C fruit or juice — orange, grapefruit, tangerine or cantaloupe.  
Complete protein food — Choose one: 2 ounces partially creamed cottage cheese; 2 ounces cooked or canned fish;

### LUNCH

Complete protein food — Choose one: 4 ounces partially creamed cottage cheese; 2 ounces fish or poultry; or partially complete protein; at least 1/2 cup soybeans, chick peas and pigeon peas, cowpeas, black beans, lentils, whole grain cereals or nuts, or

### DINNER

Complete protein food — Choose one: 3 ounces fish, poultry, lean meat or partially creamed cottage cheese; Potato or substitute such as: enriched spaghetti, macaroni, rice, grits or noodles,

1 egg or 8 ounces skim milk. Bread or cereal: Choose whole grain or enriched bread (1 slice bread or 1/4 cup cooked cereal) oatmeal, farina, cornmeal.  
Polysaturated margarine. Coffee or tea, if desired.

3 level tablespoons of old fashioned peanut butter.  
Vegetables, cooked or raw. Bread, whole grain or enriched.  
Fruit in season.  
Beverage (skim milk preferred, especially if partially complete protein is selected).

plantain, yams, yautia, or corn, etc.  
Cooked vegetables: dark green leafy or deep yellow.  
Raw vegetable: salad-oil dressing.  
Bread: whole grain or enriched.  
Polysaturated margarine.  
Fruit: in season, or skim milk pudding.  
Beverage.  
Important daily foods: fat — 2 tablespoons polysaturated oil, mayonnaise, French dressing, margarine with liquid oil listed first on list of ingredients.  
Milk: at least 2 cups (8

ounces each) skim milk or substitute.  
+ + +  
These two recipes served at the same meal will keep up the protein requirement as well as the budget.  
BEAN SALAD  
2 cups cooked or canned kidney beans  
2 cups cooked or canned green beans  
1 medium onion  
1/4 cup French dressing  
Drain beans. Slice onion and separate into rings. Mix

all ingredients. Cover and chill about one hour before serving. Serves six.  
SNOWY ORANGE TARTAR  
2 egg whites  
3 tablespoons sugar  
2 tablespoons quick-cooking tapioca  
1/4 teaspoon salt  
1 two-thirds cups skim milk  
Few drops vanilla  
1 egg white  
1 tablespoon sugar  
1 medium orange, peeled, chopped, and drained  
In a large saucepan, combine the two egg whites, the 3

tablespoons sugar, the tapioca and salt; blend in milk. Cook over medium heat, stirring constantly, till mixture comes to a full boil, about 10 minutes. Remove from heat, add vanilla. In small mixer bowl, beat remaining egg white till foamy. Gradually add the remaining sugar in continue beating to soft peaks. Gently fold in a few tablespoons of hot tapioca till blended. Gradually fold mixture into remaining tapioca. Cool mixture 15 minutes, then fold in chopped orange.  
Spoon into serving dishes. Chill thoroughly before serving. Garnish with twists of orange slices, if desired. Makes five 1/2 cup servings, about 100 calories per serving.

## SPACE AGE NASA's birthday recalled

By FRANK MACOMBER  
Copley News Service

The federal space agency will celebrate its 15th anniversary Sept. 8, 1973, and at a time when America's preoccupation with other events, some of which have dulled the early glamor of adventures beyond the world.

Nevertheless, a look at the brief history of American rocketry and space flight reflects a story of unparalleled achievement in a venture filled with mysteries, where failure could mean tragedy, and success brought in with the death of three Apollo astronauts in 1967.

Fifteen years ago President Dwight Eisenhower signed in to law the National Aeronautics and Space Act of 1958. Two months later, on Oct. 1, the National Aeronautics and Space Administration, since known to the world as NASA, came into being.

Until then, research into rocket technology in this country had been a fragmented effort among the military services. NASA's tiny predecessor, the National Advisory Committee for Aeronautics (NACA), and a far-looking U.S. space scientist, the late Dr. Robert Goddard, often called the "father of U.S. rocketry."

Russia's Sputnik 1, launched Oct. 4, 1957, put 184 pounds of scientific instruments into orbit and flung a challenge at the United States' reputation for global technological superiority.

On Nov. 3, the Soviets launched another Sputnik with six times the payload of the first. This one carried a dog.

There was a public outcry in the United States for an American space program.

The result was NASA, whose policy stated that "activities in space should be devoted to peaceful purposes for the benefit of all mankind."

When NASA marks its 15th birthday, the U.S. hopefully will have a 100-ton space station, Skylab, orbiting the earth every 90 minutes.

By contrast, the nation's first satellite, Explorer 1, launched Jan. 31, 1958, weighed little more than 30 pounds. For all its lack of size and heft, Explorer 1 was the scientific gem, discovering the Van Allen Belts, regions of high energy radioactive particles speeding around the earth in space.

Still it was a far cry from Skylab, in which three-man crews are spending up to two months in space, conducting solar astronomy, earth resources, medical and other scientific and technical investigations to benefit mankind, said as NASA's policy says.

Five scientific stations on the moon continue to relay information to earth. It will require years to analyze the hundreds of pounds of moon material returned to earth by the Apollo spacecraft.

So America caught up and passed the Russians in virtually all categories of space achievement over the span of a few years, scarcely a paragraph in the time frame of history.

School talks

Negotiators for the Granite City School District met in joint session from 9:30 a.m. to 12:30 p.m. yesterday with business agents of Building Service Employees Local 98 and teachers, carpenters, laborers and painters unions. No agreements were reached but a school district spokesman said, "We made some progress."

## 'Rally to Realife' at First Baptist

The First Baptist Church of Granite City, 21st Street and Delmar Avenue, will conduct a "Rally To Realife" beginning at 7:30 p.m. Sunday and ending Sept. 16.

"Evangelist Dan Vestal of Fort Worth, Texas, will be the preacher and Bill Young of Venice will direct the music. Other features are being added to make it a "realife" experience for all," the Rev. Ray Eitelman, pastor of the First Baptist Church, said.

"Dan Vestal has blazed a trail in evangelism for over 25 years. His ministry has spanned the breadth of the United States and has seen the conversion of thousands to Christ," Rev. Eitelman said.

A native of northeast Texas, Vestal suffered severe burns of

the face when he was seven months old, and as a young man eventually underwent 14 plastic surgery operations.

In 1959 he entered Decatur Baptist College, later continuing his studies at Baylor University in Waco, Texas, and Southwestern Baptist Theological Seminary in Fort Worth, Texas.

While in Waco, as a ministerial student, Vestal was pastor of the LaVega Baptist Church and during the 27 months he was with the church there were 327 additions—220 of this number were conversions for baptism. This church led the entire Southern Baptist convention in proportionate new membership in 1964.

In the past 25 years, Vestal has conducted over 1,000 Revivals in churches across America. His ministry has taken him into some of the nation's great pulpits. He also preaches on "The Challenge," an evangelistic radio program heard weekly on numerous stations.

"Bill Young, our song leader, is a popular, young, Missouri Baptist College student from Venice. He is known and loved in all our Baptist Churches in the Quad-Cities area. In his singing he radiates the Spirit of the Lord," Rev. Eitelman said.

The public is invited at 7:30 p.m. each night to the services at First Baptist Church.

An nursery will be provided for children.

## Jerry Sanders enters Navy

Jerry O. Sanders, 19, son of Mrs. Jack Robertson, 2741 Birch Ave., and Thomas Sanders of Pontoon Beach, has started boot training at the Great Lakes Naval Training Station, Great Lakes, Ill.

Sanders enlisted in the Navy at the U.S. Armed Forces Recruiting Center, 1210 Niedringhaus Ave., Aug. 31. He will serve two years on regular duty with four years' service in the U.S. Naval Reserve.

A 1972 graduate of Granite City High School, Sanders was employed at National Lead Co. for a short time prior to enlisting in the Armed Forces.

ENGAGED. Miss Debra Page, whose parents, Mr. and Mrs. William Page, 1 Moorland Drive, are announcing her engagement to Terry W. Wallace.

## Wallace-Page engagement

Plans for a wedding in August 1974 were disclosed with announcement of the engagement of Miss Debra Page to Terry W. Wallace made by the bride-elect's parents, Mr. and Mrs. William Page, 1 Moorland Drive.

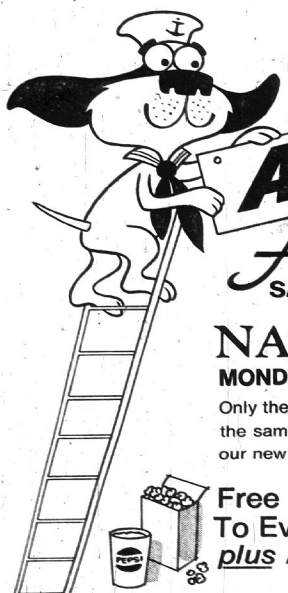

The prospective groom is a son of Mr. and Mrs. George

Wallace, 705 E. Chain of Rocks Road. Both Miss Page and her fiancé were graduated from Granite City High School. Wallace presently is employed at Bennis Visinet Mill in St. Louis.

## Stucke-Lloyd wedding at Second Baptist Church

Gold candelabra holding lighted purple candles and altar bouquets of purple and white carnations provided the setting at the Second Baptist Church for the wedding on Aug. 3, of Miss Rosemary J. Lloyd and John (Jay) Stucke, 705 Madison Ave., Madison.

Mr. and Mrs. John Lloyd, parents of the bride, reside at 3028 Edgewood Ave. The groom is a son of Mrs. June Stucke, 108 Westgate Drive, and Kenneth Stucke of Granite City.

The Rev. B. E. Dutton officiated at the 7:30 p.m. double ring service. Norman Grote, organist, accompanied the soloist, Miss Cheryl Barton, as she sang "The Lord's Prayer," "First Time Ever I Saw Your Face," "Wedding Song" and "We've Only Just Begun."

For her wedding, the bride wore a gown of Chantilly lace designed in a "southern belle" style. The high ruffled neckline of scalloped lace accented the fitted bodice and long tapered sleeves terminated at the wrists in a matching lace ruffles.

Her skirt was a cascade of scalloped lace tiers sweeping into a cathedral length train. She wore a jeweled flower headpiece with flower tipped streamers to frame her face, attached to a fingertip bouffant veil, and she held an elongated bouquet of white carnations and purple lace flowers encircled with white and purple velvet leaves.

Miss Gail Lewis, maid of honor; the bridesmaids, Miss Shirley Brokaw and Miss Jeaneen Kunkin, a cousin of the bride, and the flower girl, Milinda Eberhart, preceded the

MR. AND MRS. JOHN STUCKE. Marriage vows were exchanged by the couple at Second Baptist Church with the Rev. B. E. Dutton officiating. The bride is the former Miss Rosemary Lloyd, a daughter of Mr. and Mrs. John Lloyd, 3028 Edgewood Ave. (Lazenby Photo)

bride down the white carpeted aisle. They were gowned alike in silk organza dresses with long full sleeves trimmed at the cuffs with wide lace, centered with purple ribbon. The sheer bodices were enhanced at the neckline with matching lace trim and their skirts were

fashioned of white organza, imprinted with deep purple geometric designs. Each girl wore a purple picture hat and carried a colonial bouquet of purple and white carnations edged with a garland of velvet leaves. Keith Brown was best man, William Thomas, Gordan

Granite City Press-Record Page 22 Thur., Sept. 6, 1973

## String Orchestra group to meet

Mrs. Kit Grindstaff, president of the String Orchestra Society of Granite City, announced today that the first meeting of the 1973-74 school year will be held at 7:30 p.m. Monday, Sept. 17 at Frohardt School cafeteria, 2000 Johnson Road. The summer school program will be discussed by Miss Linda Beane, string instructor, and a report will be made on the fall enrollment.

Frohardt, Maryville, Nannoli, Niedringhaus, Parkview and Webster were the six schools chosen for the pilot program. String students from Stallings, Marshall, McKinley and Lake schools will meet at Lake School on Tuesday and Thursday mornings at 8:30, beginning Thursday, Sept. 13.

String students from Johnson, Emerson, Washington and Logan schools will meet at 8:30 a.m. Monday and Wednesday at Lake School on Tuesday and Thursday mornings at 8:30, beginning Thursday, Sept. 13.

(Skip) Lloyd, a brother of the bride, Kenneth King, Craig Winters, Carl Stucke, a brother of the groom, and Charles Friedman completed the corps of groomsmen and ushers. Michael Dennis Jr. served as the ringbearer.

The rehearsal dinner, served beside the swimming pool area at the home of family friends in Creve Coeur, Mo., was hosted by the groom's mother.

Miss Karen Fisher registered guests at a reception given in the church fellowship hall.

The bridal couple will reside in Madison upon returning from a wedding trip in Missouri. Both are graduates of Granite City High School. The former Miss Lloyd is employed as a unit clerk at St. Elizabeth Hospital. Her husband attended Bailey Technical School in St. Louis and presently is working as a draftsman.

Out-of-town guests here for the wedding were Mr. and Mrs. Jerry Kunkin and children, Jeanette, Johnny, Judy and Jimmy, and Mr. and Mrs. Herb Winters, and Mrs. Russell Winters and son, Kenny, of Jacksonville, Fla.

Logan School, beginning Wednesday, Sept. 12. Students from Coolidge, Grubbs and Proctor Junior high schools, Granite City High School-North and GCIS-South will meet in the South building's orchestra room from 3:30 to 5 p.m. on Monday and Wednesday of each week, beginning Monday, Sept. 10.

Further information is available from the String Orchestra Society, P.O. Box 421, Granite City, Mrs. Grindstaff said.

## George Monken is promoted

George N. Monken, son of Mr. and Mrs. Ralph Monken, 1521 Cottage Ave., has been promoted to Warrant Officer from Specialist 6, in a ceremony at Fort George G. Meade, Md.

He graduated from Granite City High School in 1961. After attending Northern Illinois University and Southern Illinois University, he enlisted in the U.S. Army in 1966.

The local serviceman received his basic training at Fort Leonard Wood and special training at Fort Devens, Mass. He has been stationed in Crichton, Japan, and Fort Meade. After attending officers training school at Fort Sill, Okla., he will report on Oct. 3 to Vint Farm, Va.

WO Monken, his wife, Vicki, and children Christopher and Rebecca, left Thursday after visiting with parents. They are now guests of Mrs. Monken's parents, Mr. and Mrs. Edward L. Slack in Kokomo, Ind., where his family will stay while Monken is at Fort Sill.

ALAN JENSEN BECOMES PARENTS OF 1ST SON. Mr. and Mrs. Alan Jensen of Fulton, Mo., became the parents of their first son, born Aug. 28 at the Fulton hospital. The father is a former resident of Granite City.

The infant weighed eight pounds, eight ounces and has been named Brian Alan. The couple also has a daughter, Chanda Rae, 2 years.

Grandparents are Mr. and Mrs. Hans A. Jensen of East Chain of Rocks Road, Mitchell, and Mr. and Mrs. Sam Mitchell of Chillicothe, Mo.

Working women in the Quad-City area interested in learning about the objectives, training programs and opportunities available through the Business and Professional Women's national organization are being invited to attend the Granite City club's Sept. 19 dinner meeting at Charlie's Restaurant.

Reservations may be made by contacting Mrs. Lois Wetton, at 739-0838, or Mrs. Verna Lengyel, at 878-8372, prior to Sept. 14, according to Mrs. Shirley Adams, program chairman.

Dinner will be served at 6:30 p.m. Wednesday, Sept. 19. The principal speaker will be Carl Mathias, area service manager for Illinois Power Co. Mrs. Adams said the September meeting will open the club's 1973-74 season, with membership and its advantages to the working woman stressed at the initial session. Mrs. Evelyn Alford is serving as dinner co-chairman.

## Madison County Homemakers kickoff drive for members

Little red school buses, miniature school buses and "paths of learning" were used to decorate tables for the 1973-74 membership drive kickoff of Madison County Homemakers Extension Association at a noon luncheon in the County Extension office in Edwardsville.

Second vice-chairmen in charge of membership from 31 county units, district vice-chairmen and county HEA board members attended the opening program which set the goal to boost extension membership from the present 1,126 to 1,200 women.

The Cooperative Extension Service offers programs in home economics, agriculture to interested persons, both rural and urban regardless of race, color, or national origin as a service of the University of Illinois.

Mrs. Clifford Stahlhut, Edwardsville, membership chairman and county second vice president, formally opened the membership drive at the noon luncheon. She introduced the theme for the drive, "Come Learn With Me," and spoke on membership qualifications within units.

Mrs. Stahlhut explained that units are competing for honors in obtaining the most new members through Oct. 31. Winning unit membership chairmen will receive an all-expense trip to the Illinois Homemakers Extension Federation (IHEF) annual meeting in January at the University of Illinois campus in Urbana-Champaign. Units with six or more new members will be judged winner units, she said.

Mrs. Udel Wehling, District 8 director for the state Homemakers Federation, spoke on how to make a membership drive succeed. She also stressed the importance of keeping present members.

Mrs. Stahlhut outlined opportunities of membership in the Homemakers organization, including sponsorship of 4-H clubs, providing leaders and other assistance, leadership development in offices held and in local members presenting lessons; companionship with other women interested in education, homemaking skills and personal as well as community betterment.

Also cited were benefits in self-improvement through planned lessons in food

MEMBERSHIP KICKOFF luncheon of the Madison County Homemakers Extension Association featured a public information—hat fashion show. Shown examining some of the hats are Mrs. Robert Brune, county HEA president, left, and Mrs. Carolyn Niederhara. Both are from Granite City.

International Associated Country Women of the World. Also speaking during the afternoon was Mrs. Catherine Mauch, extension advisor who emphasized that Homemakers Extension meetings are open to anyone who wishes to attend—attendance is not by invitation.

A "Public Information Hat Fashion Show" which stressed the use of newspapers, radio, television and mail in getting word of the organization to non-members, concluded the meeting.

Through units in the local communities, women learn of state and national homemaker actions, in cooperation with the

## Health care

(Continued from Page 1)

illnesses and injuries which are not emergencies.

He emphasized that much of the overcrowding at emergency room facilities is caused by families who cannot find a general physician and must use the emergency room for treatment of colds and other medical care.

"Granite City is number one in the state of Illinois for the number of malpractice suits," he told the gathering. He referred to a previous comment-statement by Leo Konzen, a local attorney, that "we are the target group for malpractice suits."

He praised the efforts of State Sen. Sam Vadalabene (D-Edwardsville), who was present, in preparing a "good Samaritan bill" to protect doctors against suits for care given in emergency situations. The bill awaits the governor's signature.

Wilkins said there is a group of 15 local doctors now engaged in efforts to establish a new medical building here.

Bill H. Terrell, chairman of the community service division of the Granite City Rotary Club, the division which organized the first prayer breakfast and has led subsequent breakfasts, presided.

He reported another problem complicating the medical care shortage—"Doctors do not want to live here," he said.

Terrell said increased community pride, a willingness of doctors to accept and refer patients to new doctors, and a social atmosphere friendly to new physicians could help in attracting new physicians to this area.

He cited a concentration of doctors and specialists in St. Louis and St. Louis County, leaving many areas, like the Quad-Cities, with a shortage, "especially of primary family doctors."

Terrell presented a report by the eight-member community service committee of the Rotary Club on the medical care issue.

Those attending the meeting were divided into groups to discuss health care problems and to try to reach possible solutions. Each group then reported its findings.

One suggested that a committee be formed to interview health officials and gather information.

The limiting of emergency room use to emergencies was suggested, along with a study of means of attracting medical students to this area when they graduate.

Another group suggested that one or two target problems on which efforts could be concentrated.

It was suggested that hospital and medical officials gather data on areas of concern and report at next month's meeting.

Another group suggested studying the creation of a medical arts building or clinic, supported by the community, to provide a place for more doctors to practice.

"We all agree there is a problem and we want to solve it," Terrell summarized.

Those present agreed to ask hospital and medical association officials to prepare reports for next month's meeting.

Text of the committee report follows.

After much discussion on several topics, the committee decided that a problem which has impact on all facets of the community involves health entrance services.

It has been reported to various members of the committee, and I assume all of you have heard similar comments, that when new citizens locate in the Tri-Cities area they most likely experience great difficulty in securing the services of a doctor. Generally speaking, both doctors and dentists are not accepting new patients.

They should not necessarily be condemned for this, since most of them have such a large patient load today. To accept additional obligations would only mean they could not give proper service to those to whom they are already obligated.

One obvious solution to this might seem to be "bring in more doctors." Groups in the community have attempted to do this over the past number of years, with some small degree of success.

It must be remembered that we are in competition with nearby every municipality in the country.

We hear such excuses as—the cultural activities are not adequate for their families, desired housing is not available and desired office facilities are unavailable.

But we also hear rumors that some of the doctors presently located here are not particularly anxious for the competition.

We have heard that in some

## Scout council

(Continued from Page 1)

certificates and regional jackets in honor of their professional excellence.

The local council leads the other 16 Area 3 councils with a 7.1 per cent gain in boy members and a 9.8 per cent increase in Scout units over this time last year.

The Cahokia Mound Council which covers the southern half of Madison County and all of Bond County has a current boy membership of 3,342, which means that one in every four boys between 8 and 17 in the entire area is actively participating in the Boy Scout program.

Currently in the council there are 144 Cub Scout, Boy Scout and Explorer units, with more being organized.

This is the second time within two weeks the local Scouts have gained national recognition for the job they are doing.

The Cahokia Lodge, Order of the Arrow, was one of 12 out of the 460 Arrow Lodges in the United States honored with The E. Urner Goodman Award for the best Scout camping promotion during the year.

Mike Billeby, Venice, local lodge chief, was recognized by E. Urner Goodman, founder of the organization, on Aug. 24 at the Arrow's national conference at Santa Barbara, Calif., attended by 4,200 delegates.

A new Cub Scout leaders training course was reviewed at the executives' meeting. Instead of the seven training session there will be three, and they will be done on a personal basis. New and separate courses have been developed for Den Mothers, Cubmasters, Webelos leaders and committee members.

Future plans of the National Council of the Boy Scouts include a new high adventure area at "Land between the Lakes" in Kentucky. The land was bequeathed to the Boy Scouts by the late Albin Barkley, former vice-president of the United States.

High adventure areas for older Scouts also are in the planning stage for Alaska, State of Washington and Montana.

STEAR CAR

The auto of Floyd Stone, 5200 N. Park Drive, was stolen from 23rd Street and Illinois Ave., the owner reported at 3 p.m. yesterday.

instances when doctors have located in the Tri-Cities, they were unsuccessful in becoming a part of the medical group and because no referrals were made for their particular specialty, found it necessary to leave the community.

Our information indicates that there is major criticism on the operation of the emergency room at St. Elizabeth Hospital.

A number of instances have been cited to us where a patient felt he was desperately in need of medical attention and hospitalization, but for yet unidentified reasons required to wait until arrangements were made to authorize treatment.

We are told that at least a part of this delay is caused by a large number of citizens using the emergency room at St. Elizabeth Hospital.

In our opinion, this too might be caused by the patient not having access to a family doctor and therefore feeling it necessary to use the emergency room for treatment.

Another point which needs discussion and further explanation involves industries' approach to serving the health care of their employees. It is my understanding that such firms as A. O. Smith, American Steel, National Lead and General Steel have found that they are best served by retaining the services of a doctor on a full-time basis.

Perhaps they feel this is the most economical, but in addition they may feel they are served better than they would be if other services such as the hospital were utilized.

We certainly need to explore the methods for handling industrial type accidents, since even with the services of a doctor dedicated to specific companies, their facilities are inadequate to treat any accidents of consequence.

Our local hospital must be staffed and equipped to render these services with the utmost competence and efficiency.

Once again, instances have been cited to our group where industrial accidents have occurred and the injured party required to wait a lengthy period of time for treatment at the hospital. In some instances, the injured was transferred to a hospital in St. Louis in order to receive more prompt treatment.

It seems to us that if these problems do confront the citizens of this community, they should be more specifically identified and corrective measures taken.

## Shopping—Test for contrast when planning for wardrobe

Have you ever wondered why black clothes seem hot in the summer? It's because black objects absorb 85 percent of the light rays that reach them while white objects may absorb less than 10 percent.

Any fabric that is dark enough to absorb a high percentage of light energy will have an actual temperature higher than that of a pale fabric of similar construction.

When you combine colors, they will be most pleasing if they retain their natural value relationship. For example, if you wear yellow, yellow-green, and green; there will be greater harmony if you have a light yellow, a medium yellow-green, and a dark green.

If you reverse this (light green, medium yellow-green and dark yellow) dissonance may occur which will produce unusual and exciting effects.

Dissonance, such as this, in

clothing can provide a touch of the unexpected, but unless it's done skillfully it can be unpleasant and disturbing.

Lack of value contrast often leads to monotony. Some contrast is needed. Its location is most important, because it's to this point that the eye will be drawn first.

Objects at a distance have a slight contrast between the light and dark areas. Their outlines are blurred and somewhat vague.

Objects that are closer to our eyes have sharp outlines that are in focus. For this reason, strong, sharp value contrasts appear as though they are close to us and closely blended values seem further away.

This principle is important in wardrobe planning in that it can affect the apparent size of the figure or portion of it.

The lighter values, because they reflect more light, usually make objects and figures stand out and appear larger

than objects of the same size in darker colors.

The latter principle is dependent upon the degree of contrast between the object and its background. For example, an over-weight skier would be more conspicuous against the white ski slopes in a black ski outfit than he would be wearing a white one.

Experiment with your own wardrobe. Examine the contrast effect each outfit gives. Be critical and try changing the areas of contrast to test various effects on you.

Contrast in wardrobe is very important because the eye is drawn to that area first, so it becomes a focal point and is accentuated. The line where two colors meet can give a helping hand in leading the eye. The result is an apparent increase or decrease in the size of the figure at that point.

## 'Bye Bye Birdie' tryouts Saturday

Tryouts for the first Masquerade production of the season, "Bye Bye Birdie," will be held Saturday at 2 p.m. and Sunday at 2 p.m. and 7 p.m. on the third floor of the Miners Building in Collinsville.

"Bye Bye Birdie" is a popular 1950s musical which centers around a rock-and-roll star, Conrad Birdie; his agent, a young music publisher and prospective English teacher named Albert Peterson; and Albert's secretary, Rosie, who wants two things: to marry Albert and to become a partner in his business. Much of the comedy comes from a domineering and over-protective mother, Mae.

When Birdie is drafted into the Army, Albert's business of songwriter-publisher-manager faces collapse until Rosie suggests that Albert write a special farewell song that Conrad can sing while giving one of his fans a "last" civilian kiss. The girl selected at random from his thousands of fans is 15-year-old Kim MacCree of Sweet Apple, Ohio.

Sweet Apple goes crazy with the arrival of the celebrity, and thus the simple plot develops

into one hilarious situation after another, ending with the entire MacCree family on the Ed Sullivan show.

The play requires a large cast of both teenagers and adults, and a 12-year-old boy to play the young MacCree son. Singers and dancers are being sought by the director, Chuck Norris of Collinsville.

Persons interested in auditioning are to attend prepared with a vocal selection. Dance auditions will be held by choreographer Kathy Dart of Belleville.

Those interested in the backstage aspects of the production also are welcome. The dates for the production are Nov. 8, 10, 16 and 17.

"Hansel and Gretel," the children's show selected for this season will be March 1 and 2, 1974, followed by "Wait Until Dark" in March 24 and 31 and "Fiddler on the Roof" June 14, 15, 21 and 22.

Season tickets for the year are \$6 for adults and \$4 for students through high school age. They can be purchased in advance by contacting Mrs. Leon Scroggins at 677-2228.

### Occupy new church building

The 20th Street Church of God which has moved to its newly acquired church quarters at 1536 Fourth St., Madison, will

hold services at 7:30 p.m. today. The church formerly was located at 20th and Russell streets.

The church also will conduct Sunday School at 10 a.m. Sunday, with Sunday worship service at 11 a.m. Sunday night services will begin at 7:30. The Rev. Dewey Garner is pastor.

## LEADS Computer catches criminals

By MARY LOU MANNING  
C-Play News Service

SPRINGFIELD — An auto stolen in Peoria is recovered 10 miles south by an Illinois state policeman ... a stolen TV set from Chicago is recovered in New York ... a tractor stolen in Port Jervis is recovered in California less than a month later ... a man involved in a traffic accident in central Illinois is identified as a prime murder suspect in a California case ... all as a result of LEADS.

The Law Enforcement Agencies Data System is used to make available immediately the stolen and wanted records of local agencies to other law enforcement agencies nationwide. It is administered by the Illinois Department of Law Enforcement out of its office in Springfield.

LEADS consists of a teletype terminal in a local law enforcement agency connected via communications lines to a computer in Springfield which is, in turn, connected to an FBI computer located in the National Crime Information Center in Washington.

**KEEPING IN TOUCH** — Dwight Bee (left), superintendent of the data processing division, Harvey N. Johnson, Jr., director of the Department of Law Enforcement and Rolland Smith, information systems executive, watch computer operator John O'Neal operate a console in demonstration of LEADS equipment.

ington, D.C. Information stored in the NCIC computer consists of records on stolen autos, wanted and missing persons from all 50 states and Canada.

Here's how it works: An owner in Springfield reports his auto stolen to the nearest law enforcement agency. This information is entered into the LEADS system which is connected to 307 terminals located in the same number of municipal police departments and county sheriff's offices throughout Illinois. Meanwhile, a state policeman in Cairo stops a motorist for a minor traffic offense and decides to check the car out with the LEADS. He then radios his dispatcher who, within five to six seconds after hitting the first key on the keyboard, receives this reply: the car is, indeed, stolen.

It takes approximately five to six seconds from the time the dispatcher strikes the keys on the terminal until an answer is received from Springfield. "It generally takes 15 seconds to receive information from Washington and from 12-15 seconds from the secretary of state's office," (The secretary of state's office terminals supply information pertaining to vehicle registration and drivers' licenses.)

Nothing compels a law enforcement agency to join the system but many have. As of July, 307 terminals were connected to the system with approximately 6,000 messages per day transmitted between Springfield and Washington, D.C. In June, a total of 519,154 messages were trafficked through the state LEADS system.

If an agency wishes to join, it must adhere to the rules and regulations set forth to govern the system. It must also meet the \$243.50 per month it costs to receive the terminal, communication lines and 24-hour service. The state picks up the computer expense.

The department is also responsible for training personnel to operate the terminals. To date, over 4,000 dispatchers have attended the two-day course. In addition, a communications coordinator from

the department visits each LEADS terminal once every 90 days.

Each local dispatcher is solely responsible for the records he places into the computer. He is the only one who can modify or erase the records he has put on file.

The system is the brainchild of the data processing department.

"The proudest part of the system is the fact that we conceived it, designed it, developed it and operate it with no outside contractual help," explained Bee.

This was in 1969 and since that time it has developed into "the most complete system of its kind in any state in the country," according to the superintendent.

## Offer industrial engineer courses at Scott Base

Two courses in Industrial Engineering will be offered at Scott Air Force Base during the fall semester by the University of Illinois Division of Continuing Education and Public Service. Industrial engineering ESBA operations research systems analysis, will begin at 6:30 p.m. on Wednesday, Sept. 12, in room 216, building 1522.

Industrial Engineering ESBA1B, probability and statistics for engineers, will start at 6:30 p.m. on Tuesday, Sept. 11, in room 216, building 1522.

Registration in both classes

will be handled at the first meeting and the courses may be attended by persons not connected with Scott A.F.B. as well as those who are in the Air Force or employed as civilians at the Base.

Both courses carry four semester hours of undergraduate credit or one unit of graduate credit. The classes will meet for three hours duration one evening each week.

These initial offerings inaugurate a program intended to provide instruction which could apply towards satisfying the requirements for a master's degree in industrial engineering.

Further information about these offerings can be obtained from the office of Fred W. Steurnagel, regional program director, University of Illinois, 415 E. Main Street, Belleville, Illinois, 62220. The telephone number is 235-3900.

## Canal freight 5.5 million tons

Freight tonnage shipped through the Chain of Rocks Locks and Canal during July approached the record for any one month.

July tonnage totaled 5,504,000 tons while the record is 5,901,130 tons, recorded in October of 1972. June's tonnage of 5,384,000 tons also was near the record mark.

Despite heavy tonnage the last two months, shipments this year of 29,146,288 tons remain below the 31,753,771 tons reported in the same period of last year. Severe spring flooding caused the locks to be closed on two occasions.

The total last month included 5,503,520 tons of commercial cargo and 500 tons of government freight.

Vessels using the locks last

month, a total of 6,734, increased over the 6,646 reported in June. The total number of vessels for the first seven months of the year, 36,868, is below the total of 41,232 for the same period of 1972.

A total of 871 lockages was reported last month, more than the 835 in June. The total for the year this far, 4,747, also is below the 5,548 in the same period of last year. A total of 850 lockages was reported in July 1972.

Types of vessels showing increases in July over June totals included: small craft, up from zero to six; private recreation boats, up from 71 to 192; government tow boats, up from four to six; and government patrol boats, increasing from 16 to 23.

Decreases were reported among commercial tow boats, down from 1,002 to 992; commercial barges, down from 5,545 to 5,509; and government construction boats, down from one to zero.

No U.S. contractor boats used the canal either month and the number of government barges was nine each month. Total commercial tonnage moving upriver in July was 1,934,870 tons and 3,569,630 tons moved downriver.

Freight shipments included:

petroleum products, 494,550 tons upriver, 392,300 tons downriver; grain, 17,550 up, 2,735,250 down; coal, 685,450 up, 8,200 down; cement, sand and gravel, 9,200 up, 64,350 down;

miscellaneous commodities, 382,300 up, 141,300 down; iron and steel products 62,450 up, 179,400 down, and chemicals, 283,470 up, 49,850 down.

### Michael Tharp gets Y post

Michael Tharp has accepted the position of program director for the Tri-City Area YMCA, according to Fred Cunningham, president of the YMCA board of directors.

Tharp, who assumed the office Sept. 1, will be responsible for the total aquatic program at the Y.

Other responsibilities will include general youth programming and portions of adult programming. Tharp, a graduate of Granite City High School, completed his degree in physical education at SIUE in June this year.

He holds the Illinois Special Certification for teaching in grades K-14. His minors include health, theatre, writing, and education.

Tharp had been working as the aquatic director this summer for the Y before accepting this new post. He has 10 years of YMCA camping experience, both as a camper and staff member in Wisconsin and Minnesota.

Tharp and his wife, Julie, reside at 2433R Adams St.

### ARREST JUVENILES

Two Granite City juveniles were arrested near the home of Birdie Ridings, Rural Route Two, Box 827, this week following a break-in there. Entry was gained by forcing open a rear door, it was reported. Apparently nothing was taken, the owner said.

## New teachers to hear McBride

Dr. John J. McBride, Phoenix, Ariz., counseling psychologist associated with St. Joseph's Hospital and Mental Health Center, will speak to the new teachers of the Granite City School District Saturday at 6 p.m. at the Granite City Trust and Savings Bank.

The bank has invited all the new teachers. Board of Education members, and administrators to attend the get-acquainted dinner and to hear a presentation by a leading speaker.

Dr. McBride, formerly a member of the board of directors of the Granite City Trust and Savings Bank and chairman of the Department of Counselor Education and Educational Psychology at Southern Illinois University at Edwardsville, specializes in psychological work with children and teenagers in the St. Joseph's Mental Health Center which is part of the general hospital.

He also is a staff member of the Department of Psychiatry in the hospital. In addition to his work with teenagers and children, he engages in the family therapy group work at the hospital with the families of hospitalized patients.

Prior to joining the Edwardsville faculty, he was vice-president and general manager of the former Union Starch and Refining Co. in Granite City. Dr. McBride, who will present a talk entitled "Identifying the Child in Trouble" has his doctorate in counseling psychology from Arizona State University, his master's degree in human relations and psychology from Loyola University in Chicago and a bachelor's degree from the same school in sociology and psychology.

DR. JOHN McBRIDE

He served as an industrial executive for more than 20 years prior to entering the field of education.

During the past two years he

has presented two nationally recognized conferences on mental health in education at St. Joseph's Hospital in Phoenix. The first conference was entitled "Mental Health Services for Students," and the second was entitled "The Mental Health of Teachers and Other School Personnel."

Both of these conferences were devoted to the prevention of emotional illness in the school environment, the recognition of those needing help and the appropriate ways to aid individuals in re-establishing their emotional stability and sound mental health.

In addition to his busy schedule of patient care, he has made numerous personal

presentations throughout the southwest and has made four major television presentations in the past year.

## WORLD OF MUSIC Nostalgia wave hits fifties

Now the nostalgia wave is sweeping into the fifties as someone suddenly discovered that 20 years have passed since the early years of that decade. In the grip of the look-back mood, MGM Records has dipped into the files and emerged with a series of albums dedicated to some of the top MGM musicals of two decades ago.

The series — each is a two-record, original sound track LP — includes "Kiss Me Kate," which premiered in New York's Radio City Music Hall in 1953; "The Band Wagon," which came out in the same year; "Rose Marie," which premiered in 1954; "Hit The Deck," which opened in New York and Los Angeles in 1950; "Show Boat," which premiered in 1951; "Annie Get Your Gun," which debuted in 1950; "Singin' In The Rain," a 1952 product; and "Thru Little Woods," 1950. Also in this group is the great "Easter Parade," by Irving Berlin, which was a big hit in 1948.

This was an era when recording techniques already were fairly well advanced, and the sound on these LPs is excellent. So are the vocals — Judy Garland and Fred Astaire singing "Easter Parade," Gene Kelly doing a line job on "Singin' In The Rain," Kathryn Grayson and Tony Martin teaming up on "Annie Get Your Gun," and Gene Kelly singing "Thru Little Woods." William Warfield, reaching way down for the low tones of Kern's "Of Man River," Betty Hutton (remember the blonde bombshell?) bouncing along with "I've Got The Sun In The Morning," Howard Keel (he was Mr. Musical in the Fifties) making the audio tremble with "The Girl That I Marry," and Jane Powell and Vic Damone dueting on Vincent Youmans' "I Know That You Know."

And one that shouldn't be overlooked: Bert LaRue sound- ing very much like the com- arly lion while singing Friml's "I'm A Mountie Who Never Got His Man" (from "Rose Marie").

Regardless of your age this series has beautiful music for everyone; if you're in your teens in that era the LPs will bring back some memories.

It seems hard to believe that it was so long ago, but it's been 16 years since they were all there in July of 1957 for the Newport Jazz Festival at Freebody Park.

All the great ones were there: Oscar Peterson, Sonny Stitt, Roy Eldridge, Herb Ellis, Jo Jones, Ella Fitzgerald and Billie Holiday, Count Basie, Lester Young and Jimmy Rushing, Teddy Wilson and Gerry Mulligan, Coleman Hawkins, Dizzy Gillespie, many more.

During that July Fourth weekend they played some of the greatest jazz ever: Gillespie swinging out in his first appearance with his big band; Billie Holiday letting go with that powerful, raspy voice on "Willow Weep For Me"; Fitzgerald crooning "April in Paris"; Basie bouncing along with "One O'Clock Jump"; Teddy Wilson playing "I Got Rhythm" in his fluid, graceful style with his trio and then teaming up with the Mulligan Quartet for "Sweet Georgia Brown"; Oscar Peterson playing "Will You Still Be Mine" the way Art Tatum would have done it.

Now Verve Records has pulled all those superb sounds together again in a six-volume series titled "The Newport Years." Possibly the best thing about jazz is its continuing freshness; it doesn't wear out its welcome the way musical fads do. This jazz collection doesn't sound like it was recorded 16 years ago; it sounds like it was recorded NOW.

**PLATTER PARADE**

## 6 teachers hired for GC schools

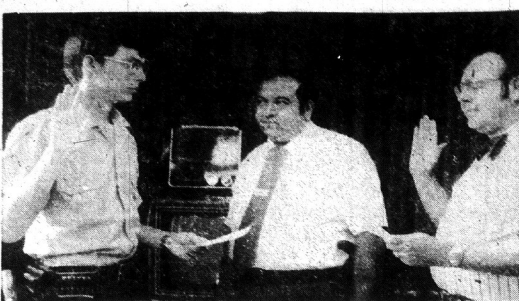

Six new teachers were hired by the Granite City Board of Education Tuesday night. Hired were: Delfora Atkinson, Edwardsville, to teach biology at Granite City High School South; Janice Burk, 2605 Iowa St., to teach lower primary grades at Mitchell School; Paula Gushiet, 712 Madison Ave., Madison, to teach sixth grade at Johnson School; and Thomas Skubish, 1824 Bremen Ave., to teach science at Prather Junior High School.

The resignation of Betty Walton, R.N., a school nurse, was accepted with regrets. Leaves of absence were granted to Marilyn McMillan, a language arts teacher, from Dec. 1, 1973, to March 3, 1974, and to Mildred Hale, a cafeteria employee, for the 1973-74 school year.

The length of the work year for an assistant principal at the new North school was established at 12 months.

Tenure status was approved for Harold Boren due to a new ruling by the Office of the Superintendent of Public Instruction that he be credited with his first year's teaching even though he began employment one day after the official opening of school.

Mrs. JoAnn Townsen, former teacher aide with the oral-deaf program, was hired by the board as a pre-school teacher aide.

**NEW POLICE OFFICER** Michael E. Sparks was administered the oath last week by Robert W. Stevens, right, city clerk. Chief of Police Ronald J. Veizer is in the center. Sparks has an Associate Degree in Law Enforcement and will be assigned to the patrol division. (Press-Record Photo)

## Michael Sparks joins GC force

Michael E. Sparks, 22, was sworn in as a Granite City police officer during the weekend by City Clerk Robert W. Stevens.

Sparks and his wife, Cynthia, live at 2472 Waterman Ave. He is the son of Mr. and Mrs. Donald Sparks, 2309 Lynch Ave. He has an associate degree in Law Enforcement and plans to continue his education at the end of his probationary period.

Graduating in 1969 from Granite City High School, Sparks as a youth was active in the DeMolays, Explorer Post 105 and Boy Scouts. His hobbies are scuba diving and karate.

He will be assigned to the patrol division and will attend a six-week basic police training course in the near future, according to Chief of Police Ronald J. Veizer.

## Energy crisis on Congress' agenda

Congressman Melvin Price has been assured by John A. Love, director of the White House Energy Policy Office, that if proposed mandatory fuel allocation regulations are implemented he anticipates "that all states would give priority to the use of petroleum products for the heating of schools."

Under the mandatory program, said Love, school heating would get somewhat more fuel than it would have gotten otherwise.

Price had urged the director to consider the school heating problem after the local congressional learned that several school districts in this region are having difficulty in securing a fuel supply for the winter.

Cong. Price anticipates that Congress will be dealing with many aspects of the energy crisis. It reconvened Wednesday following its summer recess.

During this week, the House of Representatives has a heavy schedule, including consideration of the State Department authorization, Lead Base Paint Poisoning Prevention amendments, National Flood Insurance expansion, Amtrak authorization and Housing and Urban Development loan insurance.

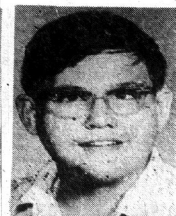

Two Madison High School students and a MHS graduate are among 20 students from throughout the state whose poems were selected for entry in the Third Annual Post Laureate's Contest, Miss Gwendolyn Brooks, noted poetess and Illinois' poet laureate, has announced.

The students are: Linda Gilliam, a junior, daughter of Mr. and Mrs. Forest Gilliam, 1731 Rhodes St., Madison; Roy Jackson, a junior, son of Mr. and Mrs. Glen Jackson, 1538 Second St., Madison; and Jamesetta Reed, a 1973 graduate and Princeton University scholarship winner, the daughter of Mrs. Jewel Hampton, 614 Mercedo Ave., Venice.

Two top awards of \$250 each are being offered. In addition, the Illinois Arts Council is offering three prizes, one of \$50 and two of \$25. The announcement of award winners is to be made this fall.

The students are: Linda Gilliam, a junior, daughter of Mr. and Mrs. Forest Gilliam, 1731 Rhodes St., Madison; Roy Jackson, a junior, son of Mr. and Mrs. Glen Jackson, 1538 Second St., Madison; and Jamesetta Reed, a 1973 graduate and Princeton University scholarship winner, the daughter of Mrs. Jewel Hampton, 614 Mercedo Ave., Venice.

Two top awards of \$250 each are being offered. In addition, the Illinois Arts Council is offering three prizes, one of \$50 and two of \$25. The announcement of award winners is to be made this fall.

The students were the students of Mrs. Nancy Meyer and Nelson Heister who teaches in the school's humanities program.

## The Rev. J. F. Sheahan assigned to Quincy, Ill.

The Rev. John F. Sheahan, formerly the assistant pastor of Sacred Heart Church in Granite City from 1949 to 1953, has been appointed pastor of St. Peter's parish in Quincy, Ill., according to an announcement by Bishop William A. O'Connor.

His appointment becomes effective Sept. 11.

For the past 15 years, the Rev. Sheahan has been pastor of St. Denis Church, Shipman,

Ill., and the Mission Church of St. John's in Medora, Ill. The Rev. Sheahan was ordained on Dec. 20, 1946, and his first assignment was at St. Mary's Church in Quincy, Ill. From 1953 to 1955 he was administrator of St. Alexius Parish, Beardstown, Ill. Rev. Sheahan also served as chaplain of St. John's Hospital from 1955 to 1959.

Participants on 102 projects paid \$12,355,000 for food stamps valued at almost \$22,780,000. The difference of about \$10,425,000 or bonus value of the coupons was USDA's contribution to the program. The bonus averaged \$12.70 per person compared with \$12.81 the preceding month.

Thus far in fiscal year 1973, Illinois participants have been issued more than \$218,700,000 worth of food stamps of which nearly \$102,110,000 were bonus coupons.

Stanner said that the program is designed to provide low-income persons with more and better food. FNS sponsors the program in cooperation with the Illinois Department of Public Aid.

Of the total participants, 122,700 did not receive public assistance payments.

## Food Stamp use drops

The U. S. Department of Agriculture's Food and Nutrition Service reports that nearly 823,000 low-income persons in Illinois received food aid through the Food Stamp Program during April, according to A. S. Stanner, Acting Midwest Regional Administrator. This was a decrease of around 23,300 from March.

Participants on 102 projects paid \$12,355,000 for food stamps valued at almost \$22,780,000. The difference of about \$10,425,000 or bonus value of the coupons was USDA's contribution to the program. The bonus averaged \$12.70 per person compared with \$12.81 the preceding month.

Thus far in fiscal year 1973, Illinois participants have been issued more than \$218,700,000 worth of food stamps of which nearly \$102,110,000 were bonus coupons.

Stanner said that the program is designed to provide low-income persons with more and better food. FNS sponsors the program in cooperation with the Illinois Department of Public Aid.

## Aid rules—51% present and instruction adequate

St. Louis School Superintendent Michael J. Bakalis has informed Illinois school districts of new guidelines his office will use to determine whether a school is operating sufficiently during a given day to qualify for state aid.

The new regulation was spurred primarily by confusion among some district officials over the effect of teacher strikes on state aid payments. The guidelines apply, however, to any situation which might cause a school to reduce its instructional programs.

Bakalis said, "The new definition of what constitutes a full instructional day for state aid purposes is fair not only to teachers and administrators, but is also fair to the taxpayer and especially the student."

"It will also mean," he said, "that district officials will not have to operate in the dark for extended periods over the

impact of a reduction of school services upon the state aid."

His guidelines specify that a school shall be considered in operation if at least 51 per cent of the students are in attendance and instruction programs are being offered at all grade levels.

The programs that are conducted must be adequate and meet instructional standards as set out in the state education office's recognition and supervision guidelines. If a school district fails to meet either of these two criteria, for whatever reason, it will be penalized one per cent of its annual state aid claim each day.

The penalty is provided for by the state school code and the only exceptions are school closings which result from acts of God, as determined by the state superintendent.

During school strikes and

other occasions which either force a school to close or to operate on a reduced basis, teams of professional evaluators from the state office visit schools to monitor programs.

This year, Bakalis has promised he will notify districts of the findings of the visitation teams early enough to allow a district to make up for lost days by adding school days to its calendar.

Bakalis said his office will make available to boards and teacher organizations lists of qualified mediators. This is a procedure his office has used during past strike situations.

Upon request, the state office will supply factual information to both parties and offer advice and counsel to parties engaged in impasse. Bakalis said these procedures have in many instances been effective in resolving disputes.

### Comment and analysis

Sept. 6, 1973

#### Springfield bureau — New fund could strengthen or further split party

The role envisioned for the planned new Illinois Democratic Fund is unclear, but those who make up the Democratic party organization suspect it is a vehicle for Gov. Dan Walker to seize more firmly the reins of party leadership.

Illinois Republicans have for a number of years had a party fund raising organization structured separately from the elected party officialdom, the State Central Committee. Democrats have not; they financed their statewide operations through the State Central Committee.

The Democratic State Central Committee is still dominated by Chicago Mayor Richard Daley; therefore, Daley has retained control of the party purse at the state level, such as it is. The statewide staff of the Democratic party has always been small and the State Central Committee has operated on a slim budget; most of the financing has been on a county basis instead of a state basis. Candidates for state office looked primarily to the county organizations rather than the state organization for help in fund raising.

Gov. Walker's new Democratic Fund is widely interpreted to be a method for him to take away from the county organizations the power of the purse. It is not just the Cook County organization but also many of those downstate which are out toward Walker. If he is to lead the party effectively, he needs some system for financing a statewide organization.

Angelo Geocaris, the Chicagoan who said he was asked by Walker to organize the fund, said an IDF board would probably establish standards — including philosophical qualifications — to determine which Democrats would get financial assistance. The possibility has been suggested that one objective would be to support legislative candidates next year who would be more favorable to the governor and his positions, which could involve the IDF in some

tough primary fights. The objective would be to get Walker Democrats nominated in the primary. Also, in a number of districts dominated by Republicans, where the Democrats figure to win only one House seat in 1974, the intra-party fight could extend to the November election, with the Walker candidate battling the regular party candidate to be the one Democrat elected.

If such intraparty battling occurs in swing districts and the Democratic candidates end up fighting each other rather than the Republicans, it could hurt the party's bid to take over the House.

Whatever is said or written now is only speculative, since the IDF organization has not even been established yet, but it appears to us Gov. Walker will have to be very careful if he is to avoid the kinds of things he's complained about in the past.

He bitterly criticized the party organization for "hand picking" candidates, claiming it was really only Daley who did the picking. If the IDF is set up, directed and staffed by Walker people, how can the governor avoid having IDF-backed candidates labeled as "hand picked" by him?

He also was critical of party funds being used to help specific candidates in primaries. Wouldn't the IDF also be open to the same criticism if it backed the governor's favorites — or any other candidates — in primary elections?

There are some good points to the fund plan. Geocaris said all contributions would be made public and the maximum amount any one individual could give in one year would be \$3,000, rules that reduce the possibility of any influence buying.

But if it is not carefully established and operated, the IDF could turn out to be a divisive influence in the Democratic party in Illinois rather than a tool to strengthen the party.

#### Washington bureau — Soviets smiling now but they are still dangerous

Andrei Sakharov, the Soviet physicist who has the courage of his convictions, has told newsmen in Moscow he believes countries like the United States of America should not help the Russians develop their industry and agriculture unless the Communists offer something more in return.

He would like to see the greater "democratization" of Soviet society be made a condition for such trade and investment, and warns that it could be dangerous for the West if the Soviet Union grows stronger without such changes.

Mr. Sakharov has risked arrest to get his message out. We can be grateful to hear a voice from behind the Iron Curtain indicating that there is still hope for change among people who have lived so long under the Communist system. However, Mr. Sakharov is actually telling us something we already knew.

There is indeed a risk in going along with the Soviet policy of détente and allowing the Communists to bolster their own inefficient economy with our goods and services. However, we have lived with the risk of Soviet aggression for nearly a generation and have kept the peace. The new danger is that the Kremlin's policy of smiles will induce the United States and its allies to think that the Soviet system has changed when it really hasn't.

We can see that danger surfacing in the talk of cutbacks in the strength of the North Atlantic Treaty Organization. We can see it in attempts to eliminate

new weapons programs from our defense budget. Many Americans no longer see a paradox in committing so much of our treasure to defense against Russia as a potential enemy at the same time we are going all-out to make the Russians our trading partners.

The resolution of that dilemma, and the answer to the dangers it poses, lies in approaching our new relations with the Soviet Union with our eyes wide open. Right now those open eyes must tell us that the Russians are as determined as ever to confront us, as Mr. Sakharov puts it, "armed to the teeth."

Our own economy has much to gain by trade with Russia. The cause of peace will surely be served by the exchange of goods and services between our two countries. It can only improve the prospects for the "era of negotiation" which we have entered. However, we cannot expect it to produce overnight changes in the policy of a government committed to a Marxist-Leninist ideology with a paranoid view of the capitalist world.

Mr. Sakharov may find it disappointing that the principles of free trade require that our country should not try to use trade concessions to exact changes in the internal political or social policies of another. We can hope that such changes may evolve from new contacts between Americans and Russians. Meanwhile, it is our responsibility to see that the Soviet policy of détente is not misinterpreted.

#### Washington bureau — All-volunteer Army concept appears to be failing

Sen. John Stennis, still convalescing from the wounds he received in a robbery last winter, has given us one more reason to hope he will soon return to his seat as chairman of the Senate Armed Services Committee. On a recent trip to Hawaii he got a chance to see first-hand how the all-volunteer enlistment program is creating manpower problems in some military units based in the Pacific. Never one to be patient with any threat to the strength of our Armed Forces, Sen. Stennis could help steer the investigative curiosity of Congress toward a question that is far more important to the future of our country than who said what to whom in the Watergate affair.

That question is whether our Washington leadership and a great many citizens, as well, are not wearing rose-colored glasses to avoid conceding what is becoming increasingly evident — that the end of the draft last January was a mistake.

With all the publicity efforts, the liberalization of enlistment standards, the relaxation of discipline in military life and the new salary scales that have lifted manpower costs to over half of the defense budget, the Army could enlist only 89 per cent of the men it needed in the first six months of this year. The expected summer "bulge" in enlistments following school graduations has come and gone. The Army met only 84 per cent of its recruiting goal in June and 76 per cent in July.

Now the Army is contemplating still another compromise in its enlistment standards — increasing the percentage of high school dropouts its recruiters can sign up to meet their quotas. It is no won-

der Sen. Stennis is worried when he sees the sophisticated weapons and communications systems on which we are depending for our defense, and considers how we are going about enlisting the personnel who must be trained to use them.

We entered the all-volunteer experiment with a plan to scale back our Armed forces to 2.2 million men, the smallest number since before the Korean war. Some members of Congress are using the enlistment lag to argue for cutting back even more.

This is a time to remember that we have no justification for experimenting with what is adequate for the defense of our country. The responsibilities and commitments of our Armed Forces is what must determine their size. The structure of military units and the weapons they use is what must determine the levels of intelligence and proficiency demanded of military personnel. The only room for experiment is in finding whether salaries and career opportunities in the military can be made attractive enough to produce enough volunteers of the right quality to fill those needs.

President Nixon and Congress embraced the all-volunteer experiment on the basis of Defense Department projections that our military manpower needs would continue to be filled by voluntary means. It is time now for an objective analysis of the impact which the zero-draft policy is having on the quality of our national defense. It is facts, and not an understandable desire to see the experiment work, which must determine how long it continues.

#### Springfield bureau — Need for public trust vs. privacy for officials

THE ruling by Sangamon County Circuit Judge J. Waldo Ackerman upholding the constitutionality of Gov. Dan Walker's executive order requiring full economic disclosure by top-ranking state employees under his jurisdiction has special significance for several reasons.

First of all it opens the way for a complete judicial review, perhaps going all the way to the U.S. Supreme Court, on the long-standing issue of whether such governmental disclosure is constitutional or desirable.

Second, Judge Ackerman's decision focuses attention on one of the basic developments of our time, rapidly declining public confidence in those who conduct our government at all levels.

In his seven-page opinion, which has attracted comment as exceptionally well written, Judge Ackerman held that a compelling need for public trust in the integrity of state government over-

shadowed the right of individual privacy.

This is a challenging finding and one that certainly merits further study by higher courts. Judge Ackerman also raised the question as to whether the Walker executive order may go too far, terming it "the most sweeping in the country" and adding that it "exceeds the requirements of any state or federal statute, federal executive order or model statute."

The Ackerman decision is a well-defined starting point for which should be a long and probably far-reaching judicial determination as to how far any government may go in requiring personal financial disclosure of those who serve it. This is a matter of deep interest to the entire United States and one that must eventually be resolved. It is appropriate that Illinois is providing the way.

#### 50 Years Ago Fire siren for City Hall

SEPTEMBER 6, 1923  
The Granite City Fire Department has just placed a siren at the end of the City Hall building in the quarters now occupied by the department to be utilized in the future in case of fire calls. Purpose of the siren is to warn pedestrians and motorists who may be passing in front of the station at the time of an alarm.

#### 25 Years Ago 'Arrests' on Leap Year Day

SEPTEMBER 6, 1948  
In Leap Year Day activities, women and girls took over the operation of the Quad-Cities, arresting "any men on sight" for numerous charges. Among those "booked" were Roscoe Martin, a Nameoki policeman who was charged with being a bachelor; Harry Swan, manager of the Washington Theatre, on a

similar charge; Gene Allessi, a high school teacher; Andy Phillips, a local athlete who was charged with resisting a woman; Fred Craycraft, filling station operator, resisting arrest; Paul Grigsby, high school superintendent, smoking a pipe in public; and Fred Backs, who was charged with not having his wife with him.

FOUNTAIN OF YOUTH—Siloam Springs for many years was a popular place for "taking the waters" in the belief that if George Myers could live to 100, something from that silvan spring, the waters must have curative powers and would assure long life. Today, Siloam Springs State Park offers camping, picnicking, fishing and who knows—maybe a chance for a more serene, if not a longer life.

#### Siloam Springs still cures — the 'blahs'

QUINCY, Ill. — George Myers was 102 years old when he died in 1932, and because of his longevity Siloam Springs for many years was a popular place for "taking the waters" around the turn of the century.

Today the springs are one of many natural attractions in Siloam Springs State Park in western Illinois but no longer are the exotic claims for miracle cures made about the spring waters.

At one time, however, it was claimed that the waters not only assured long life — look what drinking them did for George Myers — but that they had the power to cure all physical ailments including drunkenness and morphine and opium addiction.

The coolness of the springs waters was already being available in the Civil War era, when a general store was built nearby and a spring house constructed to cool food and drinks. Myers had acquired the land earlier, around 1850, probably for his services in the Black Hawk and Mexican wars.

Shortly after the Civil War a Presbyterian minister, Rev. Reuben K. McCoy, chanced on the springs and gave them their present name, drawn from the biblical pool where a blind man's sight was restored.

Sometime later the waters were analyzed and reported to be of more strength and curative value than the waters of the famed Eureka or Weiss springs. The Siloam Forest home hotel was built in the late 1880s, to make the miracle waters more easily available to the public. With a bathing house, spring houses, scenic walks and other genteel facilities the hotel for many years was a popular resort, and water from the springs was shipped as far west as Kansas City.

With time, railroads and then hard roads spread across the state bypassing the Siloam Springs area. The belief in medicinal waters for

universal cures declined and so did the resort's popularity.

One last attempt was made in the 1930s to return the springs to popularity but a few years later the old hotel and bathhouse were torn down, the swimming pool was abandoned and the waters were no longer used for drinking.

In 1940, residents of Adams and Brown counties raised funds to match state money and purchase the area, and Siloam Springs became a state park in 1956.

Today, the park, located off Ill. Rt. 104 about 25 miles east of Quincy, is one of the largest in the state in acreage, with 3,182 acres of rough glaciated terrain in rolling hills and valleys, and a 68-acre lake which impounds water from a 1,300-acre watershed.

Picnic areas are scattered through the park and there is a shelter house, concession stand and three playgrounds near picnicking and camping areas. Tent and trailer camping areas are available. There is a launch area and docks for private boats when space permits. Since the park is a state fish preserve only sport fishing tackle is permitted.

Access can be gained by air as well, since there is a 2,400-foot certificated east-west landing strip with wind cone for small craft, in the park. There is hunting in seasons when game population warrants, ice fishing is allowed when ice is thick enough, and riders with their own horses can follow some six miles of horse trails through the woods.

Like all state parks operated by the Illinois Department of Conservation, advance registration must be made for groups of 25 or more, and any group of minors must have at least one responsible adult for each 15 young people.

## Miss Illinois title— fame or scholarships?

**ELGIN** — When Colleen Ann Metternich was crowned Miss Illinois recently, some of her initial winnings were \$5,000 in scholarships, a \$1,200 wardrobe and a trip to Atlantic City, N.J., to compete in the Miss America pageant in September.

But she didn't get an additional scholarship — one that would entitle Miss Illinois to four years at the state school of her choice.

The additional incentive is part of a resolution introduced by James "Pat" Philip (R-Elmhurst). The resolution provided that Miss Illinois would be the official hostess for the state during her reign and give her a scholarship. No money was provided directly for the scholarship. Instead, according to Philip, the resolution enabled the superintendent of public instruction to

make the money available out of its operating expenses.

The scholarship was vetoed by Gov. Walker.

"Over 30 states do it now," said Philip in reference to the resolution-scholarship combination. Additional justification, according to the lawmaker, is that Miss Illinois is a registered nonprofit organization with the state and that "Ray Page did give scholarships in his own authority."

The scholarships were discontinued when Michael Bakalis assumed the post of superintendent of public instruction after Page. Philip said that as a result "Schoeberlein (Rep. Allan Schoeberlein, R-Aurora) gave his local one (scholarship) since the pageant was held in his home town of Aurora. Philip said the other legislators didn't think this was fair to Schoeberlein. Hence the resolution was introduced as the solution.

Although he admitted not knowing exactly what the awards are, Philip feels the contest can get expensive with clothes and traveling and that the burden is on the family. "I don't think they're making anything off it," he concluded.

If the pageant winner is already through school (as in

the case of this year's Miss Illinois who is a teacher and a graduate of Knox College in Galesburg) the scholarship money that is already available is awarded in cash, says Jack Collins, chairman of the state field directors for the Miss Illinois pageant.

The scholarships (not counting the disputed resolution-scholarship combination) may also be used for schooling at a college or vocational school.

If the woman has not finished her education and does not wish to, the scholarship is forfeited.

Collins said that the pageant is nonprofit with Miss America "the end of the line." The Miss U.S.A. contest is separate. A corporation to handle the contest has been in existence for three years, said Collins. "Any profits are turned right back into the scholarship program for the girls."

The scholarship as it now stands (again excluding the resolution) can go up each year. Collins said that after the pageant expenses are paid (band and high school), any extra is added to the fund.

A Miss Illinois pageant, as most people know it, begins on a local level and is usually sponsored by a civic group such as the Jaycees or Kiwanis.

Collins emphasized that it is not a beauty contest but a scholarship contest. The contestants are judged on talent, evening gown, and swimsuit competition.

The swimsuit competition started out "as a way to keep people in Atlantic City after Memorial Day 54 years ago," said Collins. He said there "really is no opposition coming from people who feel that

COLLEEN ANN METTERNICH  
... she wears the crown for Illinois

being judged in a swimsuit is inconsistent for a scholarship. People get shook up over nothing. A girl will go to the beach with hardly anything on and have an audience."

Some, like Jack Collins and Pat Philip feel that an additional scholarship would be an additional incentive to be a part of the contest.

It would also have plenty of scholarships available to help fully satisfy anyone who would comment that it is "just a beauty contest."

The resolution is in "legislative limbo," with the major part of the problem concerning the money for scholarship.

The office of Supt. Michael Bakalis will not make an official statement on the problem. Since the governor took the money out of the Bakalis budget himself it can be viewed as an example of unnecessary state spending.

But Pat Philip isn't happy with the situation. He said he "is going to do research" to determine if the governor acted legally in stopping the scholarship. Even Collins agrees that it is "not a totally dead issue."

So, when or if the conflict is resolved, Miss Illinois winners of the future could stand to benefit quite a bit from the resolution-scholarship combination.

An additional scholarship plus what is already available would make the Miss Illinois pageant quite a scholarly contest to get in on — swimsuits or not.

**REV. HESTER TO SPEAK AT CHURCH OF CHRIST**

The public is invited to hear the Rev. Giles Hester speak at a series of special programs at the Church of Christ, 2130 Clark Ave. The minister will deliver his remarks at 7:30 p.m. Friday and Saturday and at 6:30 p.m. Sunday.

Christian fellowship and singing also will highlight the three evening services, according to the Rev. Bill Willard, pastor.

## St. Elizabeth meal policy

St. Elizabeth Parochial School of Granite City has announced a free meal policy for school children unable to pay the full price of meals served in school under the National School Lunch Program.

Illinois statutes require all public schools to provide free lunches to children from families whose income is at or below the established guidelines. Local school officials have adopted the following family size-income criteria for use in determining eligibility.

One in family, \$2,740 income; two, \$3,600; three, \$4,460; four, \$5,310; five, \$6,160; six, \$6,990; seven, \$7,800; eight, \$8,610; nine, \$9,360; ten, \$10,140; eleven, \$10,840; twelve, \$11,580; each additional family member, \$840.

Children from families whose income is at or below those shown are eligible for meals free. In addition, families not meeting this criteria but with other unusual expenses due to unusually high medical expenses, shelter costs in excess of 30 percent of income, special education expenses due to the mental or physical condition of a child, and disaster or casualty losses are urged to apply.

They may do so by filling in the application forms sent home in a letter to parents. Additional

copies are available at the principal's office in each school. The information provided on the application will be confidential and will be used only for the purpose of determining eligibility. Applications may be submitted any time during the school year.

In certain cases foster children are also eligible for these benefits. If a family has such children living with them and wishes to apply for such meals for them, they should contact the school.

In the operation of children feeding programs, no child will be discriminated against because of his race, sex, color, or national origin.

Under the provision of the policy, the principal, Sister Lacinia, will review applications and determine eligibility. If a parent is dissatisfied with the ruling of the official, he may make a request either orally or in writing to Father Mattingly, pastor.

A complete copy of the policy is on file in each school and in the office of the Superintendent of Schools, Edwardsville, where it may be reviewed by any interested party.

Where do you want the freezer in your new Amana refrigerator...

on the side? on the bottom? on the top?

**Amana gives you a choice**

If you want your zero degree freezer on the side, here's the Amana Side-by-Side. Or you can have it on the top or bottom. They're all Free-Of-Frost in both the refrigerator and freezer.

And every Amana has two independent temperature controls, one for the freezer, one for the refrigerator. There's a "refrigerator-within-a-refrigerator" that keeps meat fresh up to twice as long as an ordinary meat keeper. And a high-humidity compartment that keeps vegetables fresh up to three weeks.

Come and look at the choices Amana has for you. Then choose the one you want from gold, avocado, copperstone or white.
